The Exploring series helps students master the how and why of performing tasks in office to gain a greater understanding of how to use the individual applications together to solve business problems. Exploring titles feature perfect pages where every step of every hands-on exercise as well as every end-of-chapter problem begins on a new page and has its own screen shot to make it easier to follow. Each chapter contains hands-on exercises, capstone exercises, and mini cases for practicing and reviewing skills acquired. Ideal for students and individuals seeking a comprehensive introduction to computer concepts for Microsoft Office 2007.

The Sayre Morris texts have been written for first-year economic principles courses offered in colleges and universities. In writing the text, the authors have focused on four guiding principles: achieve a well-written text; the authors have developed a well-written text that speaks directly to the student; at the same time, the text avoids unnecessary jargon.

abstraction and repetition focus emphasis on the student students learn economics by doing economics self test questions are positioned throughout each chapter to check for understanding and the authors have integrated a carefully crafted study guide with three levels of problems allowing students to master the basics as well as get reinforcement with the more difficult concepts avoid an encyclopaedic text each text covers the course in 13 carefully crafted chapters allowing for a few extension topics ensuring that most of the text can be covered in the standard 12 or 13 weeks provide a coherent package the authors have written the text instructor s manual and integrated study guide and have carefully supervised the development of the test bank powerpoint slides and the online learning centre content ensuring an integrated and comprehensive teaching and learning package

this market leading text is continually praised by reviewers for its clear practical and successful method of training students to master the skills of human communication this introductory human communication text covers interpersonal communication small group communication and public speaking with a consistent model of theoretical explanation followed by numerous practical examples activities sample visual scenarios and speeches self assessment and review students cannot help but to become ethical competent communicators in our mediated world
