amy chua s remarkable and provocative book explores the tensions of the post cold war globalising world as global markets open ethnic conflict worsens and

democracy in developing nations can turn ugly and violent chua shows how free markets have concentrated disproportionate often spectacular wealth in the hands of resented ethnic minorities market dominant minorities adding democracy to this volatile mix can unleash suppressed ethnic hatred and bring to power ethno nationalist governments that pursue aggressive policies of confiscation and revenge chua also shows how individual countries may be viewed as market dominant minorities a fact that could help to explain the rising tide of anti american sentiment around the world and the visceral hatred of americans expressed in recent acts of terrorism chua is not an anti globalist but in this must read bestselling book she presciently warns that far from making the world a better and safer place democracy and capitalism at least in the raw unrestrained form in which they are currently being exported are intensifying ethnic resentment and global violence with potentially catastrophic results

the un outlawed genocide in 1948 and the united states launched a war on terror in 2001 yet still today neither genocide nor terrorism shows any sign of abating this book explains why those efforts have fallen short and identifies policies that can prevent such carnage the key is getting the causation analysis right conventional wisdom emphasizes ancient hatreds poverty and the impact of western colonialism as drivers of mass violence but far more important is the inciting power of mass ideological hate propaganda this is what activates the drive to commit mass atrocities and creates the multitude of perpetrators needed to conduct a genocide or sustain a terror campaign a secondary causal factor is illiberal dualistic political culture this is the breeding ground for the extremist us vs them ideologies that always precipitate episodes of mass hate incitement a two tiered policy response

naturally follows from this analysis in the short term several targeted interventions to curtail outbreaks of such incitement and in the long term support for indigenous agents of liberalization in venues most at risk for ideologically driven violence
