2022 choice outstanding academic title the indigenous paleolithic of the western hemisphere is a reclaimed history of the deep past of indigenous people in north and south america during the paleolithic paulette f c steeves mines evidence from archaeology sites and paleolithic environments landscapes and mammalian and human migrations to make the case that people have been in the western hemisphere not only just prior to clovis sites 10 200 years ago but for more than 60 000 years and likely more than 100 000 years steeves discusses the political history of american anthropology to focus on why pre clovis sites have been dismissed by the field for nearly a century she explores supporting evidence from genetics and linguistic anthropology regarding first peoples and time frames of early migrations additionally she highlights the work and struggles faced by a small yet vibrant group of american and european archaeologists who have excavated and reported on numerous pre clovis archaeology sites in this first book on paleolithic archaeology of the americas written from an indigenous perspective the indigenous paleolithic of the western hemisphere includes indigenous oral traditions archaeological evidence and a critical and decolonizing discussion of the development of archaeology in the americas

volume 2 of 6 of the complete premium print version of journal forum for inter american research fiar which is the official electronic journal of the international association of inter american studies ias fiar was established by the american studies program at bielefeld university in 2008 we foster a dialogic and interdisciplinary approach to the study of the americas fiar is a peer reviewed online journal articles in this journal undergo a double blind review process and are published in english french portuguese and spanish

this book lays out the evolution of the often contested construction management discipline how is the field defined what has been discovered to date who are the researchers involved where is the research being conducted what national priorities exist among the many nations now grappling with how to absorb foreign construction expertise or compete in the global commons despite the overwhelming economic and

political importance of the global construction industry and its impact on the world until now there has been no book dedicated to describing the body of research in the field or where the knowledge frontier lies this book is the first of its kind offering a comprehensive appraisal of the state of play in the emerging field of international construction management icm research it will serve as a reference guide for academics and researchers embarking on or already active in global construction management research it lays out who the researchers are along with their fields of expertise the institutions dedicated to icm research global research trends the journals accepting icm research and a country by country analysis of national research priorities it will assist the fledgling phd and the budding researcher as well as the discipline expert in making better decisions on how to advance the field of international construction management through research that both augments cm education and directly benefits the industry

this book makes two basic assumptions first an accurate picture of the content methods and goals of social studies courses is best obtained by analyzing a representative sample of widely used textbooks second the most important function of social studies courses is to develop skills of critical inquiry among students the central purpose of this volume has been to assess critically the quality and content of elementary junior high and senior high school social studies instruction in the united states today this volume tries to provide both experienced and prospective teachers creative suggestions on how to use and evaluate existing social studies materials and instructional procedures there are also guidelines for future developments in social studies teaching
