library of congress subject headings lcsh is used by more libraries worldwide than any other controlled vocabulary system yet many librarians and paraprofessional staff do not have any formal education or training in lcsh they find themselves having to decipher or construct lcsh strings and don't know where to begin here is a resource that uses language non catalogers can understand and provides hands on user friendly training in lcsh here karen snow transfers her popular lcsh workshops and continuing education courses to book form for those who can't attend her courses this book offers material on the basics of subject analysis the importance of controlled vocabularies and the main features and principles of lcsh it explains and provides guidance on the application of lcsh library of congress instruction manual for lcsh the subject headings manual is discussed at length several chapters concentrate on assigning lcsh to resources of a certain focus or genre fiction works

biographical works or works that focus heavily on a certain person or their works and resources that emphasize a geographic location a separate chapter on encoding subject information in the machine readable cataloging marc standard will be particularly useful for library staff most chapters contain exercises with answers at the end of the book that test a reader's understanding of the chapter material and provide opportunities to practice applying lcsh and subdivisions

viewing transportation through the lens of current social economic and policy aspects this four volume reference work explores the topic of transportation across multiple disciplines within the social sciences and related areas including geography public policy business and economics the book's articles all written by experts in the field seek to answer such questions as what has been the legacy not just economically but politically and socially as well of president eisenhower's modern interstate highway system in america with that system and the infrastructure that supports it now in a state of decline and decay what's the best path for the future at a time of enormous fiscal constraints should california politicians plunge ahead with plans for a high speed rail that every expert says despite the allure will go largely unused and will never pay back the massive investment while at this very moment potholes go unfilled all across the state what path is best for emerging countries to keep pace with dramatic economic growth for their part what are the social and financial costs of gridlock in our cities features approximately 675 signed articles authored by prominent scholars are arranged in a to z fashion and conclude with further readings and cross references a chronology helps readers put individual events into historical context a reader's guide organizes entries by broad topical or thematic areas a detailed index helps users quickly locate entries of most immediate interest and a resource guide provides a list of journals books and associations and their websites while articles were written to avoid jargon as much as possible a glossary provides quick definitions of technical terms to ensure full well rounded coverage of the field the general editor with expertise in urban planning public policy and the environment worked alongside a consulting editor with a background in civil engineering the index reader's guide and cross references combine for thorough search and browse capabilities in the electronic edition available in both print and electronic formats encyclopedia of transportation is an ideal reference for libraries and those who want to explore the issues that surround transportation in the united states and around the world

this book explains both the strategic and the operational aspects of exercising control of the sea the struggle for sea control consists of three mutually related and overlapping phases obtaining maintaining and exercising sea control it is in the phase of exercising sea control when one's strategic or operational success is exploited otherwise the fruits of victories achieved would be wasted this work describes the strategy of a stronger side in wartime after a desired degree of control has been obtained which is followed by a discussion on the objectives and main methods used in exercising sea control the remaining chapters explain and analyze in some detail each of the main methods of exercising sea control defence and protection of one's own and destruction neutralization of the enemy's military economic potential at sea capturing the enemy's operationally important positions ashore destroying weakening the enemy's military economic potential ashore and supporting one's ground forces in their offensive and defensive operations on the coast this book will be of much interest to students of strategic studies sea power
