aadhaar was originally pitched as a way to eliminate identity fraud in the delivery of public benefits today its application far exceeds that purpose nandan nilekani the technology billionaire who was the prime mover behind aadhaar has said that data has become the new oil and that if we canrestructure data to benefit every individual and every business then we can lead to enormous amount of activity and economic growth he has also said in the west the identity business was privatised that s a much more unsafe model than when a government issues an id but while aadhaar is presented as a way to mobilise indians data for the public good the lines between those who run aadhaar and those who profit from it are blurry also in this issue praveen donthi on how the dilution of the sc st act is reigniting dalit anger against the bjp and rss nilakantan rs on the deepening fault lines between southern states and the indian union kamayani sharma on october s experiments with the bollywood romance genre sanam meher on what qandeel baloch left behind ross adkin on how brexit negotiations are raising uncomfortable questions in northern ireland senthil kumaran on the conflict between humans and tigers in india

wireless edge networks aim to provide last mile wireless connections between access points and diversified wireless end devices recent years witness the rapid development of wireless communication ecosystems including fundamental theory breakthroughs manufacture capability improvements as well as the explosively increasing wireless end devices and service demands it is known that spectrum is the irreplaceable resource for wireless transmissions in edge networks nevertheless it is quite challenging and inefficient to allocate dedicated spectrum for each single transmission link due to the severe shortage of spectrum resource alternatively by enabling different links to use the same spectrum spectrum sharing is envisioned to be a promising paradigm to properly accommodate the conflict between the scarce spectrum resource and substantial spectrum demands conventionally model driven optimization methods are widely adopted to optimize the spectrum sharing policy in the edge network and achieve friendly coexistence among different transmission links however future wireless edge network is predicted to be large scale and heterogeneous model driven optimization methods will be problematic such as imperfect modelling and unacceptable overheads different from the existing related books on spectrum sharing or spectrum management for wireless edge networks our book leverages the artificial intelligence ai to achieve smart spectrum sharing for wireless edge networks and elaborates ai enabled spectrum sharing technique in typical scenarios which can guide the development of next generation spectrum

sharing standards as well as provide innovative spectrum sharing methods for related practitioners including research fellow lecturers and students

based on research and practitioner generated reports this book focuses on the emergence and growth of mobile telecommunications and mobile commerce around the world provided by publisher

a call for wildlife conservationists to transcend the boundaries of locality share best practices and unite with a common voice to influence global policy habitat loss disease management predator human conflict illegal trade these are among the many conservation challenges faced by wildlife experts around the world but how wildlife professionals approach these issues has historically been geographically fragmented by providing a broad perspective on issues faced by wildlife on an international scale the authors of international wildlife management make vital connections drawing attention to underlying causes and strategies for mitigation that may look surprisingly similar from montana to zimbabwe bringing together wildlife professionals from around the globe to discuss shared challenges international wildlife management examines widespread patterns of wildlife loss covers key conservation strategies including species reintroduction community engagement and wildlife commerce explores the urgent concerns of climate change habitat loss and fragmentation invasive species and poaching reviews major organizations involved in wildlife management at an international level highlighting examples of cooperation among groups and nations in effective wildlife management efforts features stories of success and struggle from authors across 17 countries on 6 continents this timely and thorough overview thinks big by assessing threats to wildlife on a global scale wild creatures don t recognize artificial geographic borders this useful compendium demonstrates that researchers and scientists should follow their lead

since at least the great financial crisis authorities around the world have increasingly relied on macroprudential policy to help secure financial stability and complement monetary policy as an integral element of a broader macro financial stability framework in today s interconnected global financial system policy actions taken by the major advanced economies can have spillovers on the rest of the world through their impact on capital flows and exchange rates potentially generating vulnerabilities across borders conversely in emerging market economies macroprudential policy as well as foreign exchange intervention and or capital flow management policy can help

mitigate the corresponding impact this can in turn generate spillbacks on advanced economies spillbacks that have become more sizeable as the emerging market economies heft in the world has grown yet little is known about these interactions the contents of this book are based on a conference held on 26 28 may 2021 and jointly hosted by the monetary authority of singapore mas and the bank for international settlements bis it aims to contribute to existing literature on macro financial policymaking by providing an overall conceptual framework and documenting the latest global trends and country experiences in particular it highlights the role of international spillovers and spillbacks paying particular attention to emerging market economies this book is essential reading for academics graduate students and economic professionals it can also serve as a handbook for policymakers at central banks regulatory authorities and other government agencies tasked with designing and implementing macroprudential or more generally macro financial stability policies the book will also be of interest to researchers at international organisations

vol 9 26 include monthly index of surgery and gynecology
