s2we know about some of the general problems of pallet manufacture marketing and use and we know that demand is probably growing faster for wood pallets than for any other major lumber product yet except for one study we have little specific information about the characteristics of the various pallet markets to maintain and expand the pallet industry and to facilitate efficient utilization of the forest resource we need to know more about the individual markets for wood pallets s3

comprising a collection of papers from the 4th international conference on environmental and economic impact on sustainable development the research studies included in this book consider the impact of economic constraints on the environment taking into account the social aspects as well as the over use of natural resources the papers examine issues related to whether some forms of development are compatible with environmental protection particularly in cases of possible serious contamination and toxicity uncontrolled development can result in damage to the environment in terms of the release of toxic substances and hazardous waste addressing problems of great importance this book examines more constructive and progressive approaches to ensure sustainability a major motivation is to learn from past failure to avoid repeating similar mistakes while attempting to prevent emerging threats to environmental and ecological systems fundamental to these concepts are the analysis of the inherent risk and the development of appropriate strategies
