what explains differences in the lobbying behaviour of interest groups and what consequences do these differences have for the access that interest groups can gain to decision makers and the influence that they can exert on policy outcomes building on an unprecedented

amount of empirical evidence on lobbying in europe this book puts forward a distinction between lobbying insiders and lobbying outsiders lobbying insiders most prominently business interests try to establish direct contacts with decision makers enjoy good access to executive institutions and manage to shape policy outcomes when mobilizing the public on an issue is difficult lobbying outsiders in particular citizen groups such as consumer environmental or health non governmental organizations put greater emphasis on mobilizing the public or changing public attitudes find it easier to gain access to legislative decision makers and have the greatest impact on outcomes on issues that are amenable to an outside lobbying campaign the book shows that a single argument building on group type as the main variable can explain variation across interest groups in their choice of strategy their access to decision makers and the conditions under which they can exert influence the existence of lobbying insiders and lobbying outsiders has important implications for both our understanding of political decision making and the normative appraisal of contemporary democracy

this book articulates a participatory conception of deliberative democracy that takes the democratic ideal of self government seriously it aims to improve citizens democratic control and vindicate the value of citizens participation against conceptions that threaten to undermine it the book critically analyzes deep pluralist epistocratic and lottocratic conceptions of democracy their defenders propose various institutional shortcuts to help solve problems of democratic governance such as overcoming disagreements citizens political ignorance or poor quality deliberation however all these shortcut proposals require citizens to blindly defer to actors over whose decisions they cannot exercise control implementing such proposals would therefore undermine democracy moreover it seems naive to assume that a community can reach better outcomes faster if it bypasses the beliefs and attitudes of its citizens unfortunately there are no shortcuts to make a community better than its members the only road to better outcomes is the long participatory road that is taken when citizens forge a collective will by changing one another s hearts and minds however difficult the process of justifying political decisions to one another may

be skipping it cannot get us any closer to the democratic ideal starting from this conviction the book defends a conception of democracy without shortcuts this conception sheds new light on long standing debates about the proper scope of public reason the role of religion in politics and the democratic legitimacy of judicial review it also proposes new ways to unleash the democratic potential of institutional innovations such as deliberative minipublics
