traces the linguistic rhetorical historical cultural and economic origins of our most basic beliefs and practices for successful
technical writing to initiate a reckoning about who they serve and who they harm busting the myth of the communication
metaphor is a transdisciplinary approach to making visible and explaining the multiple origins of why our most basic beliefs

about what makes scientific and technical writing successful are wrong ineffective and harmful these tacitly held beliefs and practices collectively called the communication metaphor stand in as symbolic for a messier more reality based understanding of how writing and communication works by starting from conventional statements made by scientists technical professionals and standard textbooks that successful technical writing is short and to the point with the facts only no opinions the book traces the histories and structures of the multiple elements of the communication metaphor the text synthesizes survey results multiple strands of scholarship personal experience and original illustrations into a powerful argument for imagining a more just approach to scientific and technical writing
