this introduction to philosophy anthology offers contemporary essays supplemented by historical sources edited to enhance their appeal to all readers this edition also includes separate chapters on knowledge and mind the latter of which has updated essays on the mind body

problem and an essay addressing artificial intelligence

this is a collection of readings in moral philosophy intended to provide a clear and definite understanding of ethics chosen for maximum accessibility the 40 selections are organized into three parts challenges to morality moral theories and moral problems the readings are accompanied by introductions and study questions

in this remarkably accessible concise and engaging introduction to moral philosophy steven m cahn brings together a rich balanced and wide ranging collection of fifty two readings on ethical theory and contemporary moral issues he has carefully edited all the articles to ensure that they will be exceptionally clear and understandable to undergraduate students the selections are organized into three parts challenges to morality moral theories and moral problems providing instructors with flexibility in designing and teaching a variety of ethics courses each reading is followed by study questions

fifteen texts which are essential reading for anyone interested in semiotics this collection will surely become a standard text for those who teach semiotics aesthetics or philosophy of language international philosophical quarterly this volume presents the classic statements in semiotics and touches on a vast set of problems and themes philosophical aesthetic literary cultural biological and anthropological

those who begin the study of philosophy may easily become discouraged many classic texts are daunting in their complexity and much contemporary writing is intended primarily for a professional audience a few prominent philosophers of our day write in a style understandable by all but nonspecialists are often left unaware of this work they may never realize that serious discussion of central problems of philosophy can proceed without arcane terminology unexplained references or convoluted arguments the guiding principle of this book is that reading clear concise essays by recent philosophers offers an inviting avenue to understanding philosophical inquiry while some of the articles are reprinted in their entirety many are shortened to sharpen their focus and enhance their accessibility for readers who wish to understand the development of philosophy over the centuries i have included a substantial number of historical sources including without abridgement plato s

defense of socrates crito and meno as well as substantial segments from his republic descartes meditations on first philosophy and hume s an enquiry concerning human understanding and dialogues concerning natural religion most of these are identified by the name of the work from which the selection is drawn while with regard to some of the recent essays i have taken the liberty of developing short descriptive titles

what are the inherent claims that lie at the core of religion which of them are defensible by reason and which are not potential answers to these questions and more from influential philosophers past and present may be found in this short book edited by steven m cahn featuring fifty two classic and contemporary readings exploring philosophy of religion text and readings is a topically organized anthology that presents broad coverage of seven major areas in the philosophy of religion the concept of god the existence of god religious language miracles and mysticism belief in god resurrection and immortality and religious pluralism in a clear and accessible format with guiding introductory material from professor cahn each of the readings has been carefully selected and edited for maximum clarity and comprehensiveness only the most essential material is included to further foster understanding the text also features an appendix consisting of professor cahn s monograph god reason and religion which provides a synthesis and interpretation of the crucial issues raised throughout the readings

the standard location tool for full length plays published in collections and anthologies in england and the united states since the beginning of the 20th century ottemiller s index to plays in collections has undergone seven previous editions the latest in 1988 covering 1900 through 1985 in this new edition denise montgomery has expanded the volume to include collections published in the entire english speaking world through 2000 and beyond this new volume lists more than 3 500 new plays and 2 000 new authors as well as birth and or death information for hundreds of authors representing the largest expansion between editions this updated volume is a valuable resource for libraries worldwide

anarchism is by far the least broadly understood ideology and the least studied academically though highly influential both historically and in terms of recent social movements anarchism is regularly dismissed anarchism a conceptual approach is a welcome addition to this growing field which is widely debated but poorly understood occupying a distinctive position in the study of anarchist ideology this volume authored by

a handpicked group of established and rising scholars investigates how anarchists often seek to sharpen their message and struggle to determine what ideas and actions are central to their identity moving beyond defining anarchism as simply an ideology or political theory this book examines the meanings of its key concepts which have been divided into three categories core adjacent and peripheral concepts each chapter focuses on one important concept shows how anarchists have understood the concept and highlights its relationships to other concepts although anarchism is often thought of as a political topic the interdisciplinary nature of anarchism a conceptual approach makes it of interest to students and scholars across the social sciences liberal arts and the humanities

this book discloses the spiritual dimension in business ethics and sustainability management spirituality is understood as a multiform search for meaning which connects people with all living beings and god or ultimate reality in this sense spirituality is a vital source in social and economic life the volume examines the spiritual orientations to nature and business in different cultural traditions christianity judaism islam sufism hinduism buddhism and taoism it studies how spirituality and ecology can contribute to transforming contemporary management theory and praxis it discusses new leadership roles and business models that emerge for sustainability in business and shows how entrepreneurship can be inspired by nature and spirituality in a meaningful way

showcasing 58 short stories from the early nineteenth century to the present short fiction an introductory anthology second edition treats readers to a collection of works by canadian and internationally acclaimed writers tracing the evolution of the short story this anthology ignites readers imaginations with its diversity of voices themes literary techniques and writing styles

in this remarkably accessible and inviting introduction to philosophy steven m cahn brings together extraordinarily clear recent essays by noted philosophers and supplements them with influential historical sources most importantly the articles have been carefully edited to make them understandable to every reader the topics are drawn from the major fields of philosophy and include knowledge and skepticism freedom and determinism mind and body the existence of god the problem of evil faith and reason cultural relativism abortion euthanasia democracy privacy capital punishment affirmative action death and the meaning of life the collection also contains in preeminent translations and with

explanatory notes the complete texts of plato s meno euthyphro defence of socrates and crito as well as specially selected materials by aristotle aquinas descartes hume kant and mill

the ten topics contained in twentieth century literary theory reflect contemporary theoretical interests and guide the reader through fundamental questions from the formation to the uses of theory and from the construction to the interpretation of literature the selected essays cover a wealth of scholarship from both the united states and europe they go beyond traditional categories by focusing on issues rather than writers or critical movements thus providing a forum for the continuing discussion of what theory is and does

examining social work in the 1990s this volume examines such areas as radical and mainstream social work traditions the convergence of radical and mainstream social work the divergence of radicalism and the mainstream values and practice and theory and practice

exploring moral problems is an up to date inclusive collection of readings on contemporary moral problems covering both standard issues and often neglected topics each reading has been expertly edited to make them accessible to students with no prior exposure to philosophy
