lead your practice your school or your district toward a return to professionalism and away from faceless literacy programs designed with dividends in mind get informed with reading for profit read studies that prove nclb and other reforms hurt kids and learn how to initiate the change your students need

why do america s public schools seem unable to meet today s social challenges as

competing interest groups vie over issues like funding and curricula we seem to have lost sight of the democratic purposes originally intended for public education public schools were envisioned by the founders as democratically run institutions for instilling civic values but today's education system seems more concerned with producing good employees than good citizens meanwhile our country's diversity has eroded consensus about citizenship and the professionalization of educators has diminished public involvement in schools this volume seeks to demonstrate that the democratic purposes of education are not outmoded ideas but can continue to be driving forces in public education nine original articles by some of today's leading education theorists cut a broad swath across the political spectrum to examine how those democratic purposes might be redefined and revived it both establishes the intellectual foundation for revitalizing american schools and offers concrete ideas for how the educational process can be made more democratic the authors make a case for better empirical research about the politics of education in order to both reconnect schools to their communities and help educators instill citizenship an initial series of articles reexamines the original premise of american education as articulated by important thinkers like jefferson and dewey a second group identifies flaws in how schools are currently governed and offers models for change a final section analyzes the value conflicts posed by the twin strands of democratic socialization and governance and their implications for education policy spanning philosophy history sociology and political science this book brings together the best current thinking about the specifics of education policy vouchers charter schools national testing and about the role of deliberation in a democracy it offers a cogent alternative to the exchange paradigm and shows how much more needs to be understood about an issue so vital to america's future

locate federal cases decided in the u s supreme court court of appeals district courts claims court bankruptcy courts court of military appeals the courts of military review and other federal courts this key number digest contains all headnotes classified according to west's key number system for federal court decisions reported from 1984 to the present the topics are listed in alphabetical order the key numbers within those topics are listed in numerical order each topic begins with scope notes about subjects included and subjects excluded and covered by other topics also there is an outline of the topic which includes a list of all key numbers in that topic headnotes are collected by jurisdiction or court and filed according to the west key number system
