such has not only unique historical value but also a vital message for today's educational crises and can be read as a prescription against violence in our schools. It documents the research results of four highly relevant related but independent studies which comprise the biggest collection of data ever accumulated to test a person-centred theory in the field of education. This body of comprehensive research on effective teaching was accomplished over a twenty-year period in 42 U.S. states and in six other countries including the UK, Germany, Brazil, Canada, Israel, and Mexico. It is highly relevant to the concerns of teachers, psychologists, students, and parents. The principal findings of the research in this book show that teachers and schools can significantly improve their effectiveness through programs focusing on facilitative interpersonal relationships. Teachers who either naturally have or are trained to have empathy, genuineness, congruence, and who prize their students' positive regard create an important level of trust in the classroom and exert significant positive effects on student outcomes including achievement scores, interpersonal functioning, self-concept, attendance, and violence. The dialogues between Rogers and Lyon offer a unique and timeless perspective on teaching, counselling, and learning. The work of Reinhard Tausch on person-centered teaching for counselors, parents, athletics, and even textbook materials, and the empathic interactions of teachers and students is among the most thorough and rigorous research ever accomplished on the significance and potential of a person-centered approach to teaching and learning. This pioneering textbook is highly relevant to educational psychologists and researchers as well as those in undergraduate and graduate university courses in education, teacher training, counseling psychology, and educational psychology.

Many teachers discover that in order to teach with more inspiration, passion, and power, they need to come to understand more about themselves. This book focuses on teachers as relationally connected people, their thinking and beliefs, and how these influence teaching. It explores different philosophies and approaches toward teaching. Each in turn returns the reader to the central notion of seeking authenticity through relational connectedness. This career-long journey constantly reminds teachers of their humanness and humanity and the need to know and understand more about themselves as well as their students. This book is for all teachers as well as for those who are training to be teachers. It will also appeal to anyone interested in seeking to understand and develop the holistic dimensions of teaching and learning.

describes the beliefs, behaviors, attitudes, and interactions that create the best classrooms and schools.
