reality and relative reality are two completely different things the second is what we
perceive with our senses and brain imagine now that between these two there are
other levels of understanding that if we manage and activate them we do not reach
the perception of absolute reality still at least we have a better picture of what is
happening such a level is offered to us by metaphysics but we have to pay special
attention to it because many illusions often enter it but this level which i personally
refer to as the level of every day s metaphysics is a relatively accessible way of
understanding the truth that relativity once again encompasses our level of
understanding the collection of articles enclosed in this doctrine seeks as honestly
as possible to take a look at the events that characterize the metaphysical veil of
relative reality to assist the contemporary researcher in the more global perception
of the individual and the world
