the secret doctrine volume i cosmogenesis h p blavatsky the authorthe writer ratherfeels it necessary to apologize for the long delay which has occurred in the appearance of this work it has been occasioned by ill health and the magnitude of the undertaking even the two volumes now issued do not complete the scheme nor do these treat exhaustively of the subjects dealt with in them a large quantity of material has already been prepared dealing with the history of occultism as contained in the lives of the great adepts of the Âryan race and showing the bearing of occult philosophy upon the conduct of life as it is and as it ought to be should the present volumes meet with a favourable reception no effort will be spared to carry out the scheme of the work in its entirety this scheme it must be added was not in contemplation when the preparation of the work was first announced as originally announced it was intended that the secret doctrine should be an amended and enlarged version of isis unveiled it was however soon found that the explanations which could be added to those already put before the world in the last named and other works dealing with esoteric science were such as to require a different method of treatment and consequently the present volumes do not contain in all twenty pages extracted from isis unveiled

the secret doctrine the synthesis of science religion and philosophy a book originally published as two volumes in 1888 written by helena blavatsky the first volume is named cosmogenesis the second anthropogenesis it was an influential example of the revival of interest in esoteric and occult ideas in the modern age in particular because of its claim to reconcile ancient eastern wisdom with modern science blavatsky claimed that its contents had been revealed to her by mahatmas who had retained knowledge of humanity s spiritual history knowledge that it was now possible in part to reveal volume one cosmogenesis in volume one blavatsky details her interpretation of the origin and evolution of the universe itself in terms derived from the hindu concept of cyclical development the world and everything in it is said to alternate between periods of activity manvantaras and periods of passivity pralayas each manvantara lasts many millions of years and consists of a number of yugas in accordance with hindu cosmology blavatsky attempted to demonstrate that the discoveries of materialist science had been anticipated in the writings of ancient sages and that materialism would be proven wrong

the secret doctrine the synthesis of science religion and philosophy a book originally published

as two volumes in 1888 written by helena blavatsky the first volume is named cosmogenesis the second anthropogenesis it was an influential example of the revival of interest in esoteric and occult ideas in the modern age in particular because of its claim to reconcile ancient eastern wisdom with modern science blavatsky claimed that its contents had been revealed to her by mahatmas who had retained knowledge of humanity s spiritual history knowledge that it was now possible in part to reveal volume two anthropogenesis the second half of the book describes the origins of humanity through an account of root races said to date back millions of years the first root race was according to her ethereal the second root had more physical bodies and lived in hyperborea the third root race the first to be truly human is said to have existed on the lost continent of lemuria and the fourth root race is said to have developed in atlantis according to blavatsky the fifth root race is approximately one million years old overlapping the fourth root race and the very first beginnings of the fifth root race were approximately in the middle of the fourth root race citation needed the real line of evolution differs from the darwinian and the two systems are irreconcilable according to blavatsky except when the latter is divorced from the dogma of natural selection she explained that by man the divine monad is meant and not the thinking entity much less his physical body occultism rejects the idea that nature developed man from the ape or even from an ancestor common to both but traces on the contrary some of the most anthropoid species to the third race man in other words the ancestor of the present anthropoid animal the ape is the direct production of the yet mindless man who desecrated his human dignity by putting himself physically on the level of an animal

in the secret doctrine helena blavatsky presents a profound exploration of the universal truths underlying religion philosophy and science encapsulated in her meticulously woven narrative across three comprehensive volumes this work employs a distinctive blend of esoteric language and analytical reasoning drawing upon an eclectic range of sources including eastern spirituality western mysticism and the natural sciences written during the late 19th century the book aims to reveal the metaphysical framework of existence introducing concepts such as cosmic evolution and the unity of all life while challenging the prevailing materialistic worldview of her time helena blavatsky a co founder of the theosophical society was deeply influenced by her studies in eastern philosophies and occult traditions her travels in india and encounters with yogic practices and spiritual teachings profoundly shaped her worldview blavatsky s intent in writing the secret doctrine arose from her mission to disseminate these

esoteric teachings bridging the gap between science and spirituality and appealing to an increasingly skeptical society this essential text is recommended for those seeking an intellectual awakening or a deeper understanding of spiritual philosophies blavatsky s intricate ideas encourage readers to contemplate the interconnectedness of all life and prompt an exploration of their own spiritual paths making the secret doctrine a hallmark of esoteric literature that remains relevant and thought provoking today
