like many indigenous groups that have endured centuries of subordination the berber amazigh peoples of north africa are demanding linguistic and cultural recognition and the redressing of injustices indeed the movement seeks nothing less than a refashioning of the identity of north african states a rewriting of their history and a fundamental change in the basis of collective life in so doing it poses a challenge to the existing political and sociocultural orders in morocco and algeria while serving as an important counterpoint to the oppositionist islamist current this is the first book length study to analyze the rise of the modern ethnocultural berber amazigh

movement in north africa and the berber diaspora bruce maddy weitzman begins by tracing north african history from the perspective of its indigenous berber inhabitants and their interactions with more powerful societies from hellenic and roman times through a millennium of islam to the era of western colonialism he then concentrates on the marginalization and eventual reemergence of the berber question in independent algeria and morocco against a background of the growing crisis of regime legitimacy in each country his investigation illuminates many issues including the fashioning of official national narratives and policies aimed at subordinating berbers in an arab nationalist and islamic centered universe the emergence of a counter movement promoting an expansive berber imagining that emphasizes the rights of minority groups and indigenous peoples and the international aspects of modern berberism
