the church in the house a return to simplicity the most rapid expansion of christianity in history took place in the first two hundred fifty years of the church s history until recently something has been happening for the past twenty five years in china that is growing even faster what is remarkable is that both of

the church in the true sense of the word refers to all who have been redeemed or groups of christians assembled for worship the basis on which most churches operate it is quite apparent that they have not conceptualized the huge separation that exists between the church and the world between light and darkness the church is made up of individuals or groups of people who have been sanctified or set apart as holy unto the lord we all have the same equal opportunity to be one of those sanctified ones because god raised us up with christ and seated us with him in the heavenly realms in christ jesus it is in christ jesus that we all live and move and have our being he is the vine and we are the branches we have all been given the equal opportunity in order that in the coming age god the father might show the incomparable riches of his grace expressed in his kindness to us in christ jesus those who have accepted the invitation to accept jesus as their lord and savior and have not received the grace of god in vain have become a special people to god they do not become special because of anything that they have done but rather it is when the kindness and love of god our savior towards man appeared he saved us not because of righteous things we had done but because of his mercy he saved us through the washing of rebirth and renewal by the holy spirit whom he poured out on us generously through jesus christ so that having been justified by his grace we might become heirs having the hope of eternal life titus 3 4 7 remember it is by grace we all have been saved through faith and this is not from ourselves it is the gift of god not of works so that no one can boast therefore

those who are sanctified have nothing to boast about and should not hold those who are not yet sanctified in condemnation neither should those who are not sanctified hold those who are sanctified in contempt however those who are sanctified and are being sanctified must raise their consciousness and come to the realization as who they really are and the reason for being chosen in christ jesus even before the foundation of the world the titles which are assigned to the church are clear indications of the intimate relationship the church enjoys with the father and his son jesus christ the church for example is referred to as the bride of christ the body of christ the flock of god the temple of god the household of god the habitation of god god s spiritual house god s building god s husbandry etc this means that the church is inter related with the father and the son the apostle john wrote we proclaim to you what we have seen and heard so that you also may have fellowship with us and our fellowship is with the father and with his son jesus christ 1john 1 3 however despite the close relationship the church enjoys with the father and his son jesus christ there is a basis or a fundamental principle by which the church can have fellowship with the father the church therefore has an obligation which is not towards the sinful nature to live according to it for if we live according to the sinful nature we shall die despite the fact that god has saved it hence the reason jude reminds us by saying but i want to remind you though you once knew this that the lord having saved the people out of the land of egypt afterward destroyed those who did not believe we therefore have an obligation to live in accordance to the spirit if we want to live it is therefore incumbent on the church to become slaves of righteousness because having been set free from sin the requirement is to become slaves of righteousness the world s condemnation is that the light who is jesus christ has come into the world and men love darkness rather than light because their deeds were evil for everyone practicing evil hates the light and does not come to the light lest his deeds should be exposed

in this collection of essays tom greggs explores the nature of the church in a world of many religions greggs writings on the church and on other religions emphasize the importance of attentiveness to christ and the holy spirit and both are simultaneously generous and particularist the first part of the book addresses the church as it is brought into being by the spirit in glorifying god celebrates the sacraments respects the authority of the creeds is generously catholic and critiques its own religion the second part looks at the church in a pluralist context as it engages in inter faith dialogue expresses both particularism and universalism speaks of christ with

many names and reads scripture and understands the many covenants found there greggs offers a programmatic conclusion setting an agenda for theologies of the church and of other religions and their simultaneous relationality

in this book augusto rodrguez provides a historical survey of the different paradigms of christianity in order to understand how and why the church has changed her concept of being the church and of mission this book will help in understanding how the different paradigms of christianity throughout history have changed the church s self understanding of being the church and of mission rodrguez s aim is to provide an opportunity for christians to see the different paradigms the church has gone through and understand the present situation of the church in order to live out as fully as possible the new testament understanding of its mission and better accomplish the task

witness lee speaks of the church in the practical expression of the church not only from the viewpoint of god s eternal purpose which is the church triumphant and universal but also from the viewpoint of the believers experience and enjoyment of the riches of christ which produces a local expression of the church an expression that displays the oneness of the body of christ and brings in god s commanded blessing psalm 133

the church is at the third and perhaps final leg of its journey as nations undergo development the churches of the nations that become developed relapse into complacency and lukewarmness thereby compromising their christian faith while those of developing nations remain significantly rigid and at the extreme as a result the centre of church unity gave way and individuals resorted to self help and define christian faith by what seems right or wrong in their opinion painfully many christians no longer remember the object of their faith which is to influence others with the virtue of christ those dedicated to service have become the subject of persecution although persecution aims at discouraging the faithfuls from professing and practising their faith it helps in the spread of christianity and keeps the church spiritually strong and healthy how then can one describe a situation where it is the church that persecutes the faithfuls regrettably many churches are altering their creed to accommodate the new communities of

unrepentant believers and replacing faithfuls with reprobates they smuggle materialism into the church and are raising hybrid of materialistic christians in docility the church has jettisoned the christian mission for the pursuit of material wealth and is breeding a completely new generation of very shallow and ignorant christians who are lacking in the basic values of the christian faith no wonder when they prophecy it no longer comes to pass the church in the beginning it was not so is the history of christianity and the church which aims to build a strong base of christian faith in individual christians and the church in general

in many societies all over the world an increasing polarization between contrasting groups can be observed polarization arises when a fear born of difference turns into us versus them thinking and rules out any form of compromise this volume addresses polarizations within societies as well as within churches and asks the question given these dynamics what may be the calling of the church the authors offer new approaches to polarizing debates on topics such as racism social justice sexuality and gender euthanasia and ecology and agriculture in various contexts they engage in profound theological and ecclesiological reflection in particular from the reformed tradition contributors to this volume are najib george awad henk van den belt nadine bowers du toit jaeseung cha david daniels david fergusson jan jorrit hasselaar jozef hehanussa allan janssen klaas willem de jong viktória kóczán philipp pattberg louise prideaux emanuel gerrit singgih peter ben smit thandi soko de jong wim van vlastuin jan dirk wassenaar elizabeth welch annemarieke van der woude and heleen zorgdrager
