legal education is at a crossroads as a media saturated generation of students enters law school they find themselves thrust into a

fairly backward mode of instruction much of which is over 100 years old over those years legal education has resisted many credible reports recommending change most recently those from the carnegie foundation for the advancement of teaching and from the clinical legal education association meanwhile the cost of legal education continues to skyrocket with many law students graduating with crushing debt they have difficulty paying back all of these factors are likely to reach a crescendo in the next few years setting the stage for a perfect storm out of which can come significant change but legal education has successfully resisted systemic change for many years given that dubious track record the only way significant change can reasonably be predicted is if something is different this time fortunately there is something different this time the ubiquity of technology since the maccrate report in 1992 the internet has achieved massive growth and a generation of students has grown up with sophisticated and pervasive use of technology in nearly every facet of their lives this book describes how the perfect storm of generational change and the rising cost and criticisms of legal education combined with extraordinary technological developments will change the face of legal education as we know it today its scope extends from generational changes in our students to pedagogical shifts inside and outside of the classroom to hybrid textbooks all the way to methods of active interactive and hypertextual learning and it describes how this shift can and will better prepare law students for the practice of tomorrow

liner conferences are among the oldest surviving cartels in the world created in the 1870s they have existed on all the world's shipping routes with the approval or tacit acquiescence of governments everywhere they fix freight rates control capacity and share markets the united nations code of conduct for liner conferences 1974 granted them global recognition and prompted the ec to recommend member states to join the convention on the liner code 1979 and to grant them the most generous and extraordinary block exemption from ec antitrust rules ever 1986 the ec commissions administration of the block exemption has clarified some of its aspects and to a certain extent limited its scope but until very recently it has not questioned the appropriateness of the exceptionally lenient treatment of liner shipping cartels in the eu after a report by the oecd organisation for economic co operation and development secretariat 2002 recommending abolition of antitrust immunity for shipping cartels in member countries the european commission launched a review of the block exemption 2003 which has not yet finished and suggested that the authorization for liner conferences should either be repealed or severely limited this book studies first the origins the early history and the regulation of liner conferences in the world and in the ec focusing in particular on the regulation which granted a block exemption to liner conferences then the book examines one by one the four conditions for a block exemption to be granted under ec law and concludes that none of them is fulfilled by shipping cartels finally it recommends that the block exemption is repealed and proposes some alternative scenarios and solutions for the adequate enforcement of antitrust law in the maritime sector shipping conferences under ec antitrust law the only study of shipping conferences examines one of the great anomalies in world trade law

the rule of law neither celebrates human rights nor simply ratifies whatever happens to be on the statute books at its core it simply guarantees that laws however immoral or unjust penalise people only for what they do and never for what they are yet even when its moral accretions are stripped away the rule of law offers protections that morality itself has trouble maintaining this book draws on contemporary moral theory philosophy of law and political theory to explore the rule of law offering new perspectives on contemporary moral issues particularly those related to race relations cultural diversity and political correctness neumann argues that the rule of law does not compete with morality but complements it suggesting how if we cannot find principles suitable to our societies perhaps we can make societies that fit our principles
