examines the link between overparenting and the resulting generation of dependent medicated and emotionally fragile children demonstrating how over involvement by parents is causing all kinds of problems from binge drinking and self mutilation to violent and impulsive behavior and offers advice on balancing control and freedom to foster children's coping skills reprint

strengthen the connection between child development and learning we often teach our children in ways contrary to what we know about their development what if our learning environments honored children's natural inclinations and used them to enrich their lives to help students experience joy and discovery while also preparing them for future schooling we need to understand the connection between how they develop and how they learn pica brings decades of experience in education to advocate for this change written as a follow up to the bestselling what if everybody understood child development this book includes 31 easy to read chapters on topics including disruptive behavior creativity self regulation screen time and mental health suggested next steps and resources in every chapter real life examples from the author's and others experiences evidence from brain science research easy to read format perfect for plcs book studies and parents the straight talk in this book inspires readers to generate change so that children can have the lives and education they deserve

something is going wrong on many college campuses in the last few years rates of anxiety depression and suicide are rising speakers are shouted down students and professors say they are walking on eggshells and afraid to speak honestly how did this happen first amendment expert greg lukianoff and social psychologist jonathan haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into american childhood and education what doesn't kill you makes you weaker always trust your feelings and life is a battle between good people and evil people these three great untruths are incompatible with basic psychological principles as well as ancient wisdom from many cultures they interfere with healthy development anyone who embraces these untruths and the resulting culture of safetyism is less likely to become an autonomous adult able to navigate the bumpy road of life lukianoff and haidt investigate the many social trends that have intersected to produce these untruths they situate the conflicts on campus in the context of america's rapidly rising political polarization including a rise in hate crimes and off campus provocation they explore changes in childhood including the rise of fearful parenting the decline of unsupervised play and the new world of social media that has

engulfed teenagers in the last decade this is a book for anyone who is confused by what is happening on college campuses today or has children or is concerned about the growing inability of americans to live work and cooperate across party lines

the idea of resilience is everywhere these days offering a framework for thriving in volatile times dominant resilience stories share an attachment to a mythologized past thought to hold clues for navigating a future that is understood to be full of danger these stories also uphold values of settler colonialism and white supremacy what the world might look like examines the way resilience thinking has come to dominate the settler colonial imagination and explores alternative approaches to resilience writing that instead offer decolonial models of thought the book traces settler colonial resilience stories to the rise of resilience science in the 1970s and 1980s illustrating how the discipline supports the projects of white supremacy and colonialism working to unravel the blanket of common sense that shrouds the idea of resilience the book is equally cautious of settler colonial antiresilience stories that invoke the idea of death as an antidote to unbearable life susie o brien argues that although the dominant narratives of resilience are problematic resilience itself is neither inherently good nor inherently bad appreciating the significance of resilience stories requires asking what worlds and what communities they are meant to preserve looking at the fiction of alexis wright david chariandy and leanne betasamosake simpson o brien points to the potential of black and indigenous thinking around resilience to figure decolonial possibilities for planetary flourishing exposing the complexities and limits of resilience what the world might look like questions the concept of resilience highlighting how black and indigenous novelists can offer different decolonial ways of thinking about and with resilience to imagine things otherwise
