winner of grawemeyer award in this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian jurgen moltmann stands christian eschatology on its head moltmann rejects the traditional approach which focuses on the end an apocalyptic finale as a kind of christian search for the final solution he centers instead on hope and god s promise of new creation for all things christian eschatology he says is the remembered hope of the raising of the crucified christ so it talks about beginning afresh in the deadly end yet

moltmann s novel framework deeply informed by jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology are there eternal life and personal identity after death how is one to think of heaven hell and purgatory what are the historical and cosmological dimensions of christian hope what are its social and political implications in a heartbreakingly fragile and fragment world moltmann s comprehensive eschatology surveys the christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in god

many books have been written as histories recounting events that shaped the life of a group society nation or civilization or as biographies recounting events and achievements relating to one person s life and work many books have been written putting forth ideas philosophies and words of wisdom to live by some of these we call holy books or scripture fewer books have been written like this one which go behind the scenes of history lay bare the feelings behind the

philosophies and document the painful and joyful inner path along which historical events and philosophical ideas emerge this book is intensely even shockingly personal not clinical or abstract or detached it is an intimate detailed sensual and sometimes disturbing account of a life lived on the cusp that bridges time and eternity its focus is narrow it does not reveal much at all about anyone s visible public life or accomplishments but it explores in great depth the invisible contents of minds hearts and souls the scriptures and scriptural commentaries of most religions describe a path to salvation or bliss and provide instructions or guideposts for moving along the path but they are still only theoretical hypothetical mythical or metaphorical accounts this book seeks to show how the theories and hypotheses play out pragmatically in real time and space how the myths come alive in flesh and spirit how the metaphors become the very things they symbolize how does daily life look from inside someone in the throes of awakening how does she know who or what she is how is her destiny revealed how do seemingly ordinary mundane events become miracles this book begins to answer those questions

this book is a compilation of homilies of fr henry charles composed and delivered over a period of at least twenty years the homilies were written out and were eventually typed up and it is possible that fr henry had himself thought about publishing them though we do not know this for sure while many persons were privileged to receive emailed copies and others actually heard his preaching the homilies were thought to be deserving of a wider audience the underlying message of his preaching is that discipleship of jesus christ requires not only the grace of faith but also demands perseverance courage and discipline critical elements of the process he terms ongoing conversion in addition fr henry advocates moral excellence not settling for the merely moderate or the mediocre but striving always to be perfect fr henry faces up to and wrestles with the perplexities of the gospel and he believed that one of the keys to overcoming these is an appreciation of its many paradoxes and that as a consequence we are required to see things from a different perspective not as we are normally inclined to see them but as god sees them the homilies have been arranged thematically on god on jesus what jesus calls us to be what jesus calls us to do faith hope love loss suffering death and heaven virtues and vices human dignity spirituality church liturgy and ritual and culture society and leadership there is of course considerable overlap among the various themes the subjects he refers to and the examples he gives are contemporary and relevant not only to a caribbean audience but we think to audiences globally the style is informal and conversational for the most part and this quality of the writing has been maintained the homilies have been edited for clarity and for obvious errors and omissions in the transcripts and some have been retitled but they have otherwise been reproduced and stand as he wrote them

this book is a treasure house of italian philosophy narrating and explaining the history of italian philosophers from the middle ages to the twentieth century the author identifies the specificity peculiarity originality and novelty of italian philosophical thought in the men and women of the renaissance the vast intellectual output of the renaissance can be traced back to a single philosophical stream beginning in florence and fed by numerous converging human factors this work offers historians and philosophers a vast survey and penetrating analysis of an intellectual tradition which has heretofore remained virtually unknown to the anglophonic world of scholarship

in a meditation on the wisdom of the vedas roberto calasso s ardor brings ritual and sacrifice to bear on the modern world in this revelatory volume roberto calasso whom the paris review has called a literary institution explores the ancient texts known as the vedas little is known about the vedic people who lived more than three thousand years ago in northern india they left behind almost no objects images or ruins they created no empires even the soma the likely hallucinogenic plant that appears at the center of some of their rituals has not been identified with any certainty only a parthenon of words remains verses and formulations suggesting a daring understanding of life if the vedic people had been asked why they did not build cities writes calasso they could have replied we did not seek power but rapture this is the ardor of the vedic world a burning intensity that is always present both in the mind and in the cosmos with his signature erudition and profound sense of the past calasso explores the enigmatic web of ritual and myth that defines the vedas often at odds with modern thought these texts illuminate the nature of consciousness more vividly than anything else has managed to till now following the hundred paths of the satapatha brahma n a an impressive exegesis of vedic ritual ardor indicates that it may be possible to reach what is closest by passing through that which is most remote as the whole of vedic india was an attempt to think further
