in egyptian birds charles whymper presents a comprehensive exploration of avian life in egypt melding scientific observation with lyrical prose the book captures the rich biodiversity of egyptian birds characterized by meticulous illustrations and engaging descriptions that reflect both naturalistic detail and artistic flair whymper's keen observations are set against the backdrop of 19th century egypt a time of burgeoning interest in natural history allowing readers to appreciate the cultural and ecological significance of each depicted species while embracing the spirit of adventure that characterized explorations of this era charles whymper an eminent naturalist and artist is well known for his contributions to both ornithology and the visual arts having traveled extensively including notable expeditions in the egyptian landscape whymper brings both expertise and passion to this work his background in illustration enhances the textual content leading to a work that serves as both a scientific reference and a visual feast his interactions with prominent contemporaries in the field surely influenced his approach imbuing the text with depth and insight egyptian birds is therefore an essential read for bird enthusiasts historians and anyone fascinated by the intersection of nature and culture

whymer's masterful blend of art and science invites readers to explore the enchanting world of birds in egypt making it a timeless resource for understanding the natural world

hailed as a sumptuously produced and finely illustrated outstanding contribution to ancient egyptian studies this facsimile reprint of patrick houlihan's 1986 comprehensive study makes a welcome return in the oxbow classics in egyptology series animals of all kinds are amply illustrated in egyptian art none more so than birds in both secular and religious contexts and in hieroglyphic scripts a great variety of bird species has for millennia made twice yearly migrations passing over egypt which is also an important overwintering area for many these migrant birds together with indigenous species were an abundant and easily exploited source of food for ancient egyptians for domestication and status display tomb scenes displaying birds provided as food for the deceased are abundant as are procession scenes of offering with bearers bringing gifts of fowl many birds also had religious associations houlihan provides a systematic and unparalleled survey of all the bird life depicted by the ancient egyptians in art and hieroglyphic writing some 72 species plus bats with a list of known mummified species and discussions on their religious and secular associations and many illustrations their present day distributions are compared with that known from the time of the pharaohs a checklist of the birds of modern egypt is provided by steven goodman

the essential field guide to the birds of egypt and the middle east by a leading naturalist stunningly illustrated with full color photography this compact incisive photographic identification guide to 280 bird species in egypt and the middle east shows the region's most commonly seen unique and endemic species and is perfect for resident and visitor alike each bird species is illustrated with a high quality full color photograph accompanied by a detailed description which includes nomenclature size distribution habits and habitat the user friendly introduction covers biogeography migration bird topography and a glossary also included is an all important checklist of all of the birds of egypt encompassing for each species its common and scientific name as well as its status in each country and its global international union for conservation of nature iucn status

the aim of this book is to provide a systematic survey of all the species represented in ancient egyptian art and hieroglyphs in addition the birds role in secular and religious life is examined and an attempt is made to compare present day range with that of antiquity

over 250 species are included in this compact and easy to use guide to the birds of egypt and the middle east with clear colour photographs a regional distribution map and thumbnail silhouettes to help readers identify each species

this historic book may have numerous typos and missing text purchasers can usually download a free scanned copy of the original book without typos from the publisher not indexed not illustrated 1872 edition excerpt black and white kingfisher abundant throughout egypt and nubia it may be daily seen generally in pairs perched upon the steep bank or the stranded roots of some tree that has been carried down by the river at times with beak directed downwards it hovers over the water into which it darts boldly after its finny prey if unsuccessful it will repeat the performance until it captures a fish when it flies to the bank to enjoy the repast at

its ease sometimes it flies slowly close over the surface of the water it begins breeding about the end of march when it drills deep holes in the steep river banks to place its nest in head crested the whole of the upper plumage with the wiiigs and tad pure black and white sharply defined under surface of the body pure silvery white with the following markings in the adult female only one large black patch on each side of the upper part of the breast which nearly meets in the centre and a few black marks on the flanks the male has in addition an entire narrow black collar across the chest in not quite adult plumage some of the feathers on the neck and crop are narrowly edged with dull black beak and legs black irides dark brown entire length 115 inches culmen 23 wing carpus to tip 55 tarsus 05 fig sharpe s monogr alced pi 19 fam coraciadje 146 coracias garrula linn roller this is only a bird of passage in egypt and nubia arriving on its way north about the end of april i first met with it at koos on the 26th of that month and two days later i killed three out of a party of four that i saw near dendera in the spring of the year they are not rare in egypt they are rather shy but owing to a fancy they appear to have for certain clumps of trees they may be

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

tourists are not the only foreigners who flock to egypt to find solace in egypt s eternal sunlight and indulge in the lush abundance of the nile river migrating birds from the north come too and visitors luxuriating on one of egypt s gorgeous beaches touring historic monuments or enjoying a cruise down the nile are bound to encounter a wide variety of bird life water resistant and compact this handy guide to the resident and seasonal birds of egypt is a perfect reference for birdwatchers keen and casual includes 50 migrating and resident species of the nile valley ancient egypt s seasons akhet autumn inundations peret winter growth shomu summer harvest map listing birdwatching and wintering breeding locations about the series the auc press nature foldout series combine in beautifully practical form a wealth of information written by leading experts with striking full color illustrations on the flora and fauna of egypt and the middle east designed for nature lovers and outdoor adventurers as well as for indoor use the foldouts come in an easily foldable format at once compact waterproof and portable making them durable and convenient travel guides size is 23 x 8 5 in 58 5 x 21 5 cm unfolded

excerpt from handlist of the birds of egypt since the late captain g e shelley published his handbook on the birds of egypt in 1872 no scientific work dealing entirely with the avifauna of this country has been produced shelley enumerates 352 species as inhabiting egypt but many of these he rightly casts some doubt on and only includes them on the authority of older writers and one the ostrich is extinct in the country in 1875 mr j ii gurney spent six months bird collecting in egypt and the results of his trip were published in 1876 in his excellent work entitled rambles of a naturalist in which the author treats of 220 species from egypt short papers have since been published in the ibis and other publications dealing with the birds of egypt but it is unnecessary to enumerate them here for the past thirteen years i have been collecting specimens and notes with the intention of publishing a handlist on the avifauna of the country shortly after the outbreak of war owing to the

presence of many persons in the e e f interested in ornithology and the consequent stream of questions re the identification of birds seen by them it was decided to bring out as complete a list as possible of the birds of egypt giving the status and adding a short description of each form this was practically completed three years ago but owing to shortage of paper in the country it was found impossible to put this book in the press until quite recently this handlist will i trust be a help to my brother ornithologists in this and in other countries about 437 forms of birds are admitted as inhabiting or having been recorded from egypt of these the majority are migrants and some few very rare stragglers apart from records taken from formerly published works the notes in this list are based on a collection of about 4 000 skins which i have brought together during a thirteen years residence in egypt and which are now in the zoological museum at giza about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work as a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

this is the first comprehensive reference book on the birds of egypt it draws on an extensive body of literature and unpublished reports and is intended for professional ornithologists bird watchers or anyone interested in the natural history of egypt introductory sections discuss the history of egyptian ornithology geography biotic communities hunting conservation and changes in the environment the main body of the text describes the breeding distributions and seasons movements and migratory routes of the 421 species known from the country the book is illustrated by range maps of most of the breeding species numerous maps of the origins of eurasian migrants occurring in egypt and six paintings official and regional egyptian bird names are published for the first time both in arabic script and transliterated form a gazetteer of all localities mentioned in the text an extensive bibliography and indexes are included this is certain to remain the standard reference work on the birds of egypt for some time
