robert dahl's preface helped launch democratic theory fifty years ago as a new area of study in political science and it remains the standard introduction to the field exploring problems that had been left unsolved by traditional thought on democracy dahl here examines two influential models the madisonian which represents prevailing american doctrine and its recurring challenger populist theory arguing that they do not accurately portray how modern democracies operate he then constructs a model more consistent with how contemporary democracies actually function and in doing so develops some original views of popular sovereignty and the american constitutional system

publisher description

maltz reformulates the justification for originalist review and refines originalist theory itself he argues that a pure originalist approach mandates excessive judicial intervention under the constitution and he shows that most nonoriginalist theorists have failed to provide a sufficient functional justification for nonoriginalist intervention

cultural history and themendment new york times v sullivan and its times kermit l hall new directions in american constitutional history words as hard as cannon balls women's rights agitation and liberty of speech in nineteenth century america sandra f vanburkleo race state market and civil society in constitutional history mark tushnet constitutional history and the cultural turn cross examining the legal realist narratives of henry fonda norman l rosenberg contributors

waligorski shows why there is such resilience and viability to this brand of liberalism the chapter on keynes is as good a short piece on the economist as can be found anywhere kenneth m dolbeare author of american political thought a coherent and insightful book by a sagacious thinker charles e lindblom author of politics and markets

drawing on the new physics as the scientific foundation of transformational politics becker and slaton write compellingly about teledemocracy social energy and democratic quanta they outline their quantum political theory in rich detail demonstrating how we have entered a phase of highly charged erratic and sometimes self contradictory packets of social political energy that appears to occur with a rough regularity but with differing levels of velocity and force becker and slaton explore the current state and future of televoting electronic town meetings and other initiatives designed to put the public back into public affairs this book will prove to be a fascinating read for scholars students researchers and policymakers interested in new political paradigms politics and public

administration
