freedom of religious belief is guaranteed under the constitution of the people's republic of china but the degree to which this freedom is able to be exercised remains a highly controversial issue much scholarly attention has been given to persecuted underground groups such as falun but one area that remains largely unexplored is the relationship between officially registered churches and the communist government this study investigates the history of one such official church moore memorial church in shanghai this church was founded by american methodist missionaries by the time of the 1949 revolution it was the largest protestant church in east asia running seven day a week programs as a case study of one individual church operating from an historical rather than theological perspective this study examines the experience of people at this church against the backdrop of the turbulent politics of the mao and deng eras it asks and seeks to answer questions such as were the people at the church pleased to see the foreign missionaries leave were people forced to sign the so called christian manifesto once the church doors were closed in 1966 did worshipers go underground why was this particular church especially chosen to be the first re opened in shanghai in 1979 what explanations are there for its phenomenal growth since then a considerable proportion of the data for this study is drawn from chinese language sources including interviews personal correspondence statistics internal church documents and archives many of which have never previously been published or accessed by foreign researchers the main focus of this study is on the period from 1949 to 1989 a period in which the church experienced many ups and downs restrictions and limitations the mao era in particular remains one of the least understood and seldom written about periods in the history of christianity in china this study therefore makes a significant contribution to our evolving understanding of the delicate balancing act between compromise co operation and compliance that categorizes church state relations in modern china

the book is a scholarly attempt to place the post mao reforms in china in the context of developments in the soviet union and the eastern european countries the essays written in different periods have mostly been thoroughly rewritten extended updated

and refocused in the light of recent developments and demonstrate conclusively that dengist reforms were not a clean break from the past as many ideologically blinkered western sinologists readily assume the reforms succeeded mainly because the post mao regime had inherited a solid economic and political edifice created during the mao era radha sinha glasgow university uk professor kueh is one of the most original and prolific scholars in the field of communist chinese studies in this collection we can read fully updated versions of many of his most important contributions to our understanding of the chinese economy in both its domestic and foreign dimensions most of these articles are now hard to get hold of and this new volume is therefore a most welcome addition to the literature christopher howe university of sheffield uk y y kueh in this stimulating collection of essays written over a career studying china s economy spanning more than three decades argues the proposition that there were important elements of continuity in the transition of economic thinking from mao zedong to deng xiaoping the argument is controversial but scholars and students alike will gain insight into the economic development strategies of china from reading these carefully reasoned studies they will challenge many of the common assumptions about the nature of china s transition from central planning to the market dwight h perkins harvard university us deng xiaoping s economic strategy is widely regarded as a complete anathema to mao s but this study strongly argues that without the material foundations laid by mao it would have been very difficult for deng to launch his reform and open door policy deng basically shared mao s aspirations and approach in pursuit of china s industrialization and this had in fact helped to condition him to the successful gradualist methodology deng lost patience at times and resorted to the big bang strategy only to fail miserably taken together the book tells a new story about the economics of china s transition this is a highly thought provoking study blending institutional and convincing statistical analysis it will appeal to scholars and academics interested in the background and process of china emerging as an economic giant and especially to students of economics politics international business and globalization studies who aspire to an alternative non left re interpretation of mao s legacy

shortlisted for the 2018 Wolfson History Prize the extraordinary and essential story of how China became the powerful country it is today even at the high noon of Europe's empires China managed to be one of the handful of countries not to succumb invaded humiliated and looted China nonetheless kept its sovereignty Robert Bickers' major new book is the first to describe fully what has proved to be one of the modern era's most important stories the long often agonising process by which the Chinese had by the end of the 20th century regained control of their own country Out of China uses a brilliant array of unusual strange and vivid sources to recreate a now fantastically remote world the corrupt lurid modernity of pre-war Shanghai the often tiny patches of extra-territorial land controlled by European powers one of which unnoticed had mostly toppled into a river the entrepôts of Hong Kong and Macao and the myriad means through armed threats technology and legal chicanery by which China was kept subservient today Chinese nationalism stays firmly rooted in memories of its degraded past the quest for self-sufficiency a determination both to assert China's standing in the world and its outstanding territorial claims and never to be vulnerable to renewed attack History matters deeply to Beijing's current rulers and Out of China explains why

This is a critical moment in the life of China's reforming churches and the Presbyterian and Reformed Mission to China this book provides both a historical look at Presbyterianism in China and an assessment of the current state of affairs orienting readers to church development needs and the basic outlines of reformed Christianity in China today while laying out the challenges and opportunities facing the church the authors argue that assisting this reformation in China should be a central objective of the Presbyterian and Reformed Mission to China in this generation Table of Contents Introduction China Church Development and Presbyterianism Bruce P.
