this reference grammar provides for the first time a description of the grammar of mandarin chinese the official spoken language of china and taiwan in functional terms focusing on the role and meanings of word level and sentence level structures in actual conversations

when laurence thompson s original vietnamese grammar first appeared in 1965 it went almost instantly to the top of the list of required reading for serious students of the vietnamese language it has stayed there ever since but in recent years the title has become almost impossible to find either in bookstores or in libraries where

original copies have often grown woefully ragged and marked up or are now simply missing in the meanwhile the author has become aware of a number of minor infelicities and typographical errors requiring correction thus both demand and scholarship have dictated this re edition from the editor s note

have you ever wondered about a japanese sentence your textbook fails to explain do you feel unsure about the use of wa ga and mo or what the rules and meanings of words in their literary forms are if so you will find your answers in a reference grammar of japanese the most comprehensive and reliable reference source available with an extensive 105 page index the reader will quickly find explanations for particles such as wa ga mo ni and de difficult nouns such as mono koto tokoro wake hazu and tame sentence extensions such as ne yo sa yara and nari verb tenses literary forms negative forms in short everything concerned with the japanese language for the serious student this book is indispensable for clearing up the ambiguities of puzzling japanese sentences

bislama is the national language of vanuatu the world s most linguistically diverse nation with at least 80 actively spoken oceanic languages used by about 200 000 people bislama began as a plantation pidgin based on english in the nineteenth century but it has since developed into a unique language with a grammar and vocabulary very different from english it is one of very few national languages for which there is no readily available reference grammar this book aims to fill this gap by providing an extensive account of the grammar of bislama as it is used by ordinary ni vanuatu it does not therefore aim to describe any kind of artificial written norm but sets out to capture a range of different kinds of ways that ni vanuatu will say things in various contexts both written and spoken formal and informal the thrust of this volume is to show that bislama has a grammar an unfamiliar concept for those educated in vanuatu it also shows that bislama is a language of considerable complexity which will come as a surprise to many of its users who have been taught to view their language as somehow simple and even deficient

wappo is an indigenous language generally regarded as a language isolate which was once spoken in the russian river valley just north of san francisco california this reference grammar is based on the speech of laura fish somersal its last fluent speaker who died in 1990 and represents the most extensive data and grammatical research ever done on this language the grammar focuses on morphosyntax particularly nominal verbal and clausal structures and clause combining patterns from a functional typological perspective

this italian reference grammar provides students teachers and others interested in the italian language with a comprehensive accessible and jargon free guide to the forms and structure of italian whatever their level of knowledge of the language learners of italian will find this book indispensable it gives clear and detailed explanations of everything from the most elementary facts such as the relation between spelling and pronunciation or the forms of the article to more advanced points such as the various nuances of the subjunctive formal or archaic discourse is distinguished from informal everyday usage and regionalisms are also indicated where appropriate the authors have taken care to make it an easy and illuminating reference tool extensive cross referencing enables readers to quickly find the information they require and

also stimulates them to discover new related facts

a comprehensive handbook on the structure of the spanish language ideal for students and teachers

abridged and revised this reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century Spanish is the main usually the sole official language of twenty one countries and it is set fair to overtake English by the year 2000 in numbers of native speakers this vast geographical and political diversity ensures that Spanish is a good deal less unified than French German or even English the latter more or less internationally standardized according to either American or British norms until the 1960s the criteria of internationally correct Spanish were dictated by the Real Academia Española but the prestige of this institution has now sunk so low that its most solemn decrees are hardly taken seriously witness the fate of the spelling reforms listed in the *Nuevas Normas de Prosodia y Ortografía* which were supposed to come into force in all Spanish speaking countries in 1959 and nearly forty years later are still selectively ignored by publishers and literate persons everywhere the fact is that in Spanish correctness is nowadays decided as it is in all living languages by the consensus of native speakers but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent widely scattered and sometimes mutually hostile countries peninsular Spanish is itself in flux

a new reference grammar of modern Spanish is a comprehensive cohesive and clear guide to the forms and structures of Spanish as it is written and spoken today in Spain and Latin America it includes clear descriptions of all the main grammatical phenomena of Spanish and their use illustrated by numerous examples of contemporary Spanish both peninsular and Latin American formal and informal fully revised and updated the sixth edition is even more relevant to students and teachers of Spanish the sixth edition includes new chapters providing more detail and examples of key areas of Spanish grammar an increased number of Mexican examples to reflect the growing interest in this country's variety of Spanish new information for readers studying Spanish and French together a glossary of grammatical terms including English translations of Spanish terms the combination of reference grammar and manual of current usage is invaluable for learners at level B2 C2 of the common European framework for languages and intermediate high advanced high on the ACTFL proficiency scales

a reference grammar of modern standard Arabic is a comprehensive handbook on the structure of Arabic keeping technical terminology to a minimum it provides a detailed yet accessible overview of Arabic in which the essentials of its phonology morphology and syntax can be readily looked up and understood accompanied by extensive examples it will prove an invaluable practical guide for supporting students textbooks classroom work or self study and will also be a useful resource for scholars and professionals wishing to develop an understanding of the key features of the language

this is the original and most authoritative reference of korean grammar providing a wealth of information a reference grammar of korean is invaluable to all those with a serious interest in the korean language by one of the world's leading scholars of east asian languages this is the first comprehensive book on korean grammar in english professor martin gives a detailed analysis of modern korean as it is spoken in both north and south korea providing explanations sample sentences and translation tips for virtually all the grammatical structures and usage patterns that puzzle the student he places modern usage in a historical context by tracking its development back to the middle korean of the fifteenth century making this book essential to those who wish to read older korean texts the history and use of korean writing systems both hangul and chinese characters are delineated with admirable clarity tables of chinese characters in common use including those with multiple readings and a valuable appendix of the radicals and their names will prove indispensable to students seeking help in identifying and understanding the characters chapters include explanations of various romanization systems historical overview of phonological developments chinese vocabulary and characters number constructions and counting systems detailed listings of parts of speech and their functions description of verb stems and endings explanation of sentence construction and translation difficulties detailed appendixes include lists of korean surnames place names radical names and stem shapes a thorough index that makes the book easy to use this comprehensive volume deserves a place in every research library it is the definitive reference work for all those involved in korean studies

a reference grammar of dutch is aimed at english speaking students of dutch at beginner intermediate level it is designed to be practical and user friendly grammatical information is presented in short entries arranged in alphabetical order allowing students to gain easy access to specific points of grammar or problematic points of vocabulary as they encounter them in practice each grammatical rule is illustrated by simple everyday dutch examples of the kind likely to be encountered and used by the learner specialised linguistic terminology is kept to a minimum with a glossary of essential terms provided and charts and tables are included to help the student focus on the main points each entry is linked to a set of exercises which are graded according to complexity and there is a key to the exercises at the back of the book a thorough index is also provided

features the structure of the french language including new information on register pronunciation gender number foreign words adjectives and past participles used as nouns texting word order frequency of occurrence of words and usage with all geographical names

a reference grammar of the thai language useful for both the novice or advanced student this work is a revised and expanded version of mr noss dissertation at yale in 1954 an outline of siamese grammar

this text provides a comprehensive guide to the forms and structures of the spanish spoken and written in spain and latin america examples have been introduced drawing on contemporary spanish and latin american usage
