this book is for higher education faculty and staff who wish to deepen their approach to mentoring all students but it is especially concerned with outsider students those who come from groups that were long excluded from higher education and who have been marginalized and minoritized by society and academia mentoring is difficult work for an

abundance of reasons and given higher education's troubled history of exclusion as well as a contemporary context fraught with social and power imbalances it can be especially challenging when the mentorship takes place across dimensions of difference such as social class race ethnicity sexuality gender or ability mutuality mystery and mentorship in higher education examines the seemingly spontaneous and serendipitous connection between mentor and protégé and points to a new vision of mentorship based on a deep sense of reciprocity between the two Hinsdale proposes that if more mentors take a responsive decolonizing approach to their work across difference then the promise of social and class mobility through education might be realized for more of our students and the tide might begin to turn toward an increasingly inclusive intellectually open academy

this book uses a micro narrative structure to explore the assault on the collective memory of Mexican Americans in the Southwest United States from 2010-2016 these communities' survival depends on their histories and identities which are being quickly erased by gentrification and dispersal neoliberalism and privatization this issue is most apparent in the education system where Mexican American students receive inferior educations and lack access to higher education avoiding the overly theoretical macro narrative this book uses case studies and micro narratives to suggest possible changes and actions to address this issue it also explores how the erasure of Mexican Americans' history and identity mirrors society as a whole

seeks to demonstrate the interconnectedness of race class and gender at the micro and macro levels of society this study presents articles which aim to reflect the diversity of life in the US and to show how people are affected by the interlocking nature of race class and
