in this book we will consider the fundamental practices of the christian experience they are backed by two thousand years of history and a sea of witnesses who down through the ages have journeyed on this path that has led them to the summits of wisdom and holiness the difficulty in the presentation of these methods is their inevitable and artificial juxtaposition when they only find their internal and organic coherence in the living tradition they are all held together as in a living organism each element comes at a particular stage in a life that gravitates around its axis the christ that is why we will use a method which will make it possible for the reader not to remain on the exterior as a spectator the repetition of key ideas this is a teaching in the form of a spiral an eating of the word where as in liturgical chants and the experiential method of scripture we become that which we eat continually we are what we have just read rather than merely knowing it each chapter is a new approach to the unique reality rather than addressing the intellect it speaks to the heart
