mandarin chinese has become the official chinese language after the 1911 revolution it has been taught in schools for many decades and now virtually every educated chinese can speak the language today mandarin chinese is spoken throughout the country in china a western tourist in china will have no trouble communicating with the chinese in mandarin chinese some distinctive features of mandarin chinese 1 nouns quantifiers unlike the english language nouns in mandarin chinese need quantifiers just like articles in english this often becomes hurdles to be got over in learning mandarin chinese in english the words a an can be used to refer to almost any countable nouns such as a student a horse a cow a camel a ring a clock a tree and a hair a is used to refer to the above nouns on the other hand however in mandarin chinese the above nouns have their respective quantifiers 2 verbs in verbal tenses and voices remain unchanged other words mostly adverbs are used to indicate different tenses and voices as an example if you want to indicate past tense you may use such words as in the past yesterday last year if you want to indicate future tense you may use such words as next year tomorrow one day etc in nouns no distinction between singuar and plural nouns the same character stands for both forms in pronouns no distinction between subject pronouns 1 he it she we you and object pronouns her him it me them us you no distinction between singular and plural pronouns this these that those 3 there are four common ways of asking questions first use a negative word this is like the short form of a tag question in english second use interrogative pronouns who whom where what unlike english nouns in mandarin chinese need quantifiers not unlike articles in english this often becomes hurdles to be got over in learning mandarin chinese a standard noun

quantifier contains three characters including one number one quantifier and one noun when translated into english there are three forms 1 it contains only two words namely a number and a noun but no quantifier such as a dog 2 it contains three words namely a number a partitive as quantifier and a noun such as a dose of medicine or a packet of cigarettes

table of contents

mandarin chinese is difficult to learn right of course you can memorize thousands of new chinese words with no problem but it is very difficult to learn chinese grammar and hard to make sentences correctly this book can help you study chinese with no grammar book you already know sentence patterns and english grammar so now you just need to learn what is different and what is similar between chinese and english in this book the sentences are classified in different sections and each sentence with both english and chinese for every section that we go through you can easily compare chinese and english so you will quickly start to understand what is different and what is similar in both languages and the more you learn the easier it gets this book also collected many common words and phrases and classified with illustrative sentence in chinese and english after you read these illustrative sentence in chinese and english you will know how to use these words and phrases

recent developments in generative grammar have been very stimulating the current theory defines a small set of principles that apply to all human languages efforts have been made to demonstrate the adequacy of this theory for a wide range of languages we thus see an interesting interface of theory and empirical data the study of natural languages contributes to defining the properties of universal grammar and the predictions of the theory help in uncovering generalizations regarding natural languages this book aims to add to this exciting development by showing how the analysis of mandarin chinese constituent structures helps to define case theory and how interesting generalizations concerning chinese grammar are uncovered through verification of the theoretical predictions starting from the inadequacy of work by koopman li and travis on the effect of case directionality on word order the book shows that a detailed study of chinese constituent structures allows us to reduce the phrase structure component to a minimal statement concerning the position of the head in a given phrase it argues that in a given language the constituent structures can be adequately captured by the interaction of case theory theta theory government theory and x theory long standing controversies concerning chinese basic word order are resolved by showing that underlying word order generalizations can differ from surface word order generalizations

although human beings around the globe use many different languages their needs and wants in their daily lives are largely similar thus similarities between languages do exist

and often times are amazingly plentiful in this book we capitalize on the precious clues embedded in the similarities between english and chinese to empower learners with the confidence in that knowing one language can be significantly beneficial in learning the other this process is called the
