the images are shocking and upsetting drowned children washing up on beaches dozens of dead bodies being pulled out of tractor trailers a mass of humanity penned up in detention camps and tent cities anti immigrant rallies characterized by fearful and hate filled invective yet there are also images of refugees being embraced by ordinary citizens and welcomed into their countries their communities even their homes what to do about a growing and endemic refugee crisis and migrant labor population in an age of globalization terrorism and income inequality is a question with no simple answers this volume presents the widest possible range of opinions from reputable sources across the political spectrum and encourages readers to consider all viewpoints before formulating their own reasoned and informed perspective

in the wake of every killer hurricane devastating wild fire severe drought or once in a century flooding event it has become commonplace for scientists politicians and ordinary citizens to debate whether or not these severe weather events can be tied directly to climate change

and global warming the scientific consensus generally indicates that we are beginning to see upticks in extreme weather due to warming and the resulting shift in weather patterns certain politicians business interests and energy executives however forcefully reject such connections as unproven and speculative where does the truth lie this anthology collects the strongest viewpoints from across the ideological spectrum and the globe and allows readers to evaluate the arguments and evidence for themselves before forming an educated opinion

the international weapons trade is a vast and lucrative machine estimated at generating 70 billion dollars annually in 2014 the arms trade treaty which regulates the international trade in conventional arms was entered into force but compliance is complicated and even the most powerful nations have violated the treaty irresponsible arms transfers and ready availability can destabilize security and cause a host of problems among civilian populations in a region the viewpoints in this resource examine the responsibility of nation states around the world to take accountability for their participation in weaponizing

in this digital age it is not only conventional weapons that are used to threaten and harm others a new and terrifying avenue is cyberspace and ransomware this malware encrypts a user's data and demands payment in exchange for unlocking the data such attacks are becoming more widespread a 2017 cyber incident attacked more than 45 000 users in countries around the world this anthology presents a collection of global perspectives on the topic that examines the potential of such attacks and how we can secure ourselves in the future

as technology makes the world more accessible students need exposure to social political environmental and health issues of global significance each anthology in the global viewpoints series delivers contemporary views on the featured issue with much of the material reflecting stances of countries other than the united states primary sources including speeches and government documents join essays from international magazines and news sources for a truly panoramic view features include detailed bibliographies further information sections and website lists that encourage further research and independent study excellent report writing resources such as maps charts and primary sources

we live in a global society but that doesn't mean our attitudes toward other cultures have caught up debates about the wearing of religious apparel have raged in countries around the world including the united states the diverse viewpoints in this resource address topics such as how tolerance for the wearing of religious clothing differs around the world and whether or not religious clothing should be allowed in public schools readers will decide for themselves whether this is an issue of freedom of expression and religion or if it should be viewed as a threat

as technology makes the world more accessible students need exposure to social political environmental and health issues of global significance each anthology in the global viewpoints series delivers contemporary views on the featured issue with much of the

material reflecting stances of countries other than the united states primary sources including speeches and government documents join essays from international magazines and news sources for a truly panoramic view

the global viewpoints series provides students and other readers with the information they need to explore global connections and think critically about the worldwide implications of global issues each volume focuses on a controversial topic of worldwide importance and offers a panoramic view of opinions selected from a diverse range of international sources including journals magazines newspapers nonfiction books speeches government documents organization newsletters and position papers each volume contains an annotated table of contents a world map to help readers locate countries or areas covered in the essays for further discussion questions a worldwide list of organizations to contact bibliographies of books and periodicals and a subject index by illuminating the complexities and interrelations of the global community this excellent resource helps students and other researches enhance their global awareness book jacket

as technology makes the world more accessible students need exposure to social political environmental and health issues of global significance each anthology in the global viewpoints series delivers contemporary views on the featured issue with much of the material reflecting stances of countries other than the united states primary sources including speeches and government documents join essays from international magazines and news sources for a truly panoramic view

a unique and one of a kind anthology this casebook was first published as davidson de la torre managing the global corporation in 1989 it was the first modern case anthology for a graduate audience this edition contains the broadest case collection of companies and countries available in a single anthology a full 60 of the cases are non u s based firms companies in australia hong kong china mexico south american india south africa and europe are featured as case studies many of these cases were written in connection with the authors own work consulting with the organization making the information in depth and credible

up to now debates on hybridisation are rather theoretical this book takes an empirical look at both everyday cultures and lifestyles religion medicine and scientific cultures and the directions of influences the findings suggest that hybridity and hybridising have to be conceptualised as processes of mixture relevant for constructing identities being increasingly positively denoted and displaying the multidirectionality and multidimensionality of hybridising processes in our globalised world such a mixture is very frequent highly present and rather inescapable

this uniquely practical book allows pre service and practicing teachers with even the most limited background knowledge about multicultural and global education to apply that knowledge in their classrooms schools and communities the introductory chapter gives a general background review of multicultural and global education concepts and discusses the

importance of teachers becoming involved in transforming their educational practice the next six chapters investigate the classroom elements of teacher students environment curriculum instructions and assessment for way to apply multicultural and global concepts the final two chapters take readers beyond the classroom into the school and community for pre service and practicing teachers in grades k 12

are international boundaries necessarily an obstacle to effective environmental management the ever increasing competition between states for access to natural resources may represent a threat not only to ecological stability but to regional and even global security or perhaps transboundary environmental issues can actually have a positive impact on international relations encouraging states to cooperate and building confidence between previously hostile neighbours drawing on a wide range of case studies the papers in this volume explore these important issues from a multi disciplinary perspective contributions from practitioners and technical experts complement detailed studies by geographers lawyers and political scientists this mix yields a unique survey of 1 problems when environmental systems cross international borders and 2 transboundary cooperative projects designed to reduce the threat of ecological catastrophe and political conflict between competing neighbours around the world the conclusion despite the daunting challenges there exist grounds for optimism this collection is based on the proceedings of an international conference held in singapore in june 1995 co hosted by the centre for advanced studies and the department of geography national university of singapore and the international boundaries research unit university of durham united kingdom and is essential reading for anyone interested in understanding the complex relationship between boundaries environment and international security
