rick anthony furtak's *Wisdom in Love* is a subtle and fascinating study of emotional rightness focusing on kierkegaard's debt to and critique of ancient stoic ideas of falsity in emotion. furtak brings to the topic a flexible philosophical mind and a set of fresh and surprising insights. his scholarship will satisfy specialists but his impressive literary style makes the book open to any reader who wants to reflect about the topic. martha nussbaum, university of chicago, in *Wisdom in Love*, rick anthony furtak gives us a persuasive defense of love and deep concern and shows how these lead toward a religious conception of emotion and value. love and its companion emotions are placed within a picture of what is worthy, a view that makes sense of our perceptions of significance despite the pull of slants that see the world as devoid of anything that matters. it is a timely, important and original contribution to moral philosophy. edward mooney, syracuse university. furtak's voice in this book is extraordinary for it combines the authentic presence of a human being searching for understanding, the rigorous enquiry of a philosopher investigating emotion and knowledge, and the lyrical sensitivity of a poet engaged in bringing experiences to light. it is a book brimming with wisdom and love. john hanwell, riker author of *Ethics and the Discovery of the Unconscious*. this book will find an important place both in kierkegaard scholarship and in a wider philosophical context. furtak has read kierkegaard extensively and well. alastair hannay, university of oslo, in this historically informed work in moral psychology, rick anthony furtak develops a conceptual account of the emotions that addresses the conventional idea that reason and emotion stand in sharp opposition. furtak begins with a critical examination of the ancient stoic position that emotions ought to be avoided by rational human beings. he argues that on the contrary, emotions ought to be understood as embodying a kind of authentic insight which enables us to attain a meaningful and truthful way of seeing the world. furtak's positive alternative to stoicism draws heavily on the writings of soren kierkegaard, particularly *Either/Or* and *Works of Love*, while also engaging with a wide range of other relevant philosophical, literary and religious sources. he argues that a morality of virtue and narrative awareness is necessary for accurate emotional perception and then attempts to define a qualified value realism based upon a reverential trust in love as the ground of human life. the outcome of this inquiry into the possibility of reliable emotion is an account of the ideal state in which we could trust ourselves to be rational in being passionate. rick anthony furtak is associate professor of philosophy at colorado college.
