methods did not work and all i could do was speak louder as if an increased volume would increase their learning because i considered teaching a vocation i did not want to give up instead i enrolled in a doctoral program in adult education and chose teaching english as a second language as my cognate in one of my doctoral classes i had to do a research project i decided to conduct interviews with my new students and simply ask them how they prefrred to learn how to speak and write in english the results fascinated me based on what they told me and what i found in the literature i totally revamped my composition classes gone were the days of lecture instead with student input i created a film based approach to teaching writing that seemed to emancipate my students and they became proficient writers of english along the way i was emancipated too and i knew that my classes would never be the same this book is a result of my experience and i hope it can be used as a jumping off point for positive change for any college composition teacher who truly cares if their students learn
