this book has been written for those who are interested in deepening their understanding of the practice of family constellations many might ask whether this practice hasn t already been detailed in hellinger s own books and videos this book is a response to many practical questions of therapists and coaches when i speak about the art and craft of the work i am using these terms in the old sense to become a painter you have to master colours techniques perspective etc that is the master craft which the art requires the more finely trained the craftsmanship the more masterly will be the result of a new expression or theme art and depth of expression are not things which can be learned but craftsmanship is in addition to the few artists who truly break new ground we have to also recognise the great number of learned practitioners of the arts they have mastered their craft to such an extent that there is depth and expression in their work even though they may not have developed a new revolutionary style in my training programme for constellation facilitators a core of material has emerged which i pass on to those in training as a basic foundation for practising this craft from the feedback in these groups i am confident that this is a solid basis for the work with constellations

looking into the souls of children is a profound demonstration of the later systemic family constellations by their pioneer bert hellinger this book tells many stories all directly taken from life as it is greater than we imagine it they are stories about children who discover a hidden treasure in their soul a treasure that brings peace to them and to their parents and thus to all readers themselves children to parents parents to children bert hellinger brings these treasures to sudden light while the children their parents and their teachers watch their constellations unfold some of what emerges is understood immediately a treasure glistening in their hands other movements will take shape over time treasures unearthed facets yet to be polished each story

stands on its own each treasure lights a hidden depth this book reveals an unfolding not just of the clients stories but also of hellinger s body of work itself his eye now trained on what he calls mystic consciousness the vast outer layers beyond common awareness he moves with clarity among life s uncertainties introduction by bert hellinger this book tells you stories true stories we can read them as stories through which we can look into our soul into our own child soul and into the souls of our children we can even read these stories to our children but only one at a time older children can read the stories by themselves and gain a kind of understanding of their own souls that brings them a sense of relief finally they can see a way out for themselves and the same goes for us for us personally and for our children how do we read this book perhaps in a way that liberates us taking us beyond our fears and our concerns to discover whether we and our children are on the right path we look into our soul and we breathe a sigh of relief opening up to these stories letting them take us along what is the result we comprehend all children are good and the same is true of us provided we look into our soul with love

this report on the method of family constellations is a fascinating trip through theory and practice that offers a new concept of healing for lay readers as well as professionals what makes this book special is the richness of the illustrations of how symptoms of illness embody concrete events in a family and how family constellations can bring this to light with a respect that allows symptoms to recede and disappear as far as i am aware this has never before been identified and illustrated so clearly this book is a first class pioneering effort alongside new insights it also details the concrete steps that have led to new and often surprising resolutions bert hellinger
