this is merely a free pdf sample of an ipad interactive ibook title available from routelist co uk 1 99 or equivalent in other currencies

research on the united nations convention on the law of the sea unclos is a valuable addition to understanding the political situation in the potentially volatile south china sea region this book covers topics such as baselines historic title and rights due regard and abuse of rights peaceful use of the ocean navigation

regimes marine scientific research intelligence gathering the unclos dispute settlement system and regional common heritage in search of varying viewpoints the authors in this book come from multiple countries including the philippines australia ireland mainland china and taiwan the united states and indonesia singapore uk and germany ongoing events such as the recent waves made by china in the east china sea and increasing tensions between the south east asian countries over the use of south china sea make this book especially pertinent

this book unlike most studies dealing with the crusaders voyages by sea across the mediterranean and their arrival at the shores of the levant looks at this feat from a seaman s point of view to this end it examines the types of ships the sails and rigging that were used at the time drawing on the author s personal experience and knowledge of the wind regime of the region it also tackles the problems of transporting cargo humans and horses and the management of large fleets and their navigational difficulties the book also deals with the question of landing on the flat coast of palestine it looks into the connection between seaside crusader castles and the sea at their foot taking as a case study the mooring basin below the apollonia arsuf castle this examination includes under water digging and sub bottom profiling using special equipment and reveals interesting finds which call for further research
