this volume presents research on major issues in syntactic theory within role and reference grammar this theory was first presented in detail in functional syntax and universal grammar fsug and these papers represent both expansions and applications of the theory to a wide range of phenomena the first section contains an introduction to the theory which is the most thorough statement of it since fsug summarizing the features of role and reference grammar established there and developing new theoretical components and analyses of syntactic phenomena not discussed in the earlier work throughout the discussion features of rrg are compared and contrasted with comparable features of other syntactic theories the remainder of the volume is devoted to detailed analyses of specific problems e g control case marking in a wide variety of languages e g mandarin chinese nootka mparntwe arrernte and turkish thus the works presented here illustrate well the strong cross linguistic approach to syntactic theory and description in role and reference grammar

role and reference grammar rrg is a theory of language in which linguistic structures are accounted for in terms of the interplay of discourse semantics and syntax with contributions from a team of leading scholars this handbook provides a field defining overview of rrg assuming no prior knowledge it introduces the framework step by step and includes a pedagogical guide for instructors it features in depth discussions of syntax morphology and lexical semantics including treatments of lexical and grammatical categories the syntax of simple clauses and complex sentences and how the linking of syntax with semantics and discourse works in each of these domains it illustrates rrg s contribution to the study of language acquisition language change and processing computational linguistics and neurolinguistics and also contains five grammatical sketches which show how rrg analyses work in practice comprehensive yet accessible it is essential reading for anyone who is interested in how grammar interfaces with meaning

this reference grammar provides for the first time a description of the grammar of mandarin chinese the official spoken language of china and taiwan in functional terms focusing on the role and meanings of word level and sentence level structures in actual conversations

new perspectives in role and reference grammar presents a broad picture of current developments in role and reference grammar rrg a version of parallel structure grammar with an emphasis on typological adequacy since its inception rrg has been applied to a wide range of languages in particular to case marking complex clauses e g control raising and serial verb constructions unaccusativity

unergativity and the interplay between syntax and information structure the present book is a continued investigation of the intermodular correspondence in a variety of languages and comprises 13 papers which not only contribute to the further development of the theory but also investigate controversial areas of linguistic theory including inflectional and derivational morphology verbal semantics and argument structure anticausative and serial verb constructions the argument adjunct distinction an extended typology of complex clauses the syntax information structure interface and interactions between the lexicon and constructions in addition three papers illustrate how rrg may be applied to sign languages language acquisition and machine translation from arabic to english

this volume presents research on major issues in syntactic theory within role and reference grammar this theory was first presented in detail in functional syntax and universal grammar fsug and these papers represent both expansions and applications of the theory to a wide range of phenomena the first section contains an introduction to the theory which is the most thorough statement of it since fsug summarizing the features of role and reference grammar established there and developing new theoretical components and analyses of syntactic phenomena not discussed in the earlier work throughout the discussion features of rrg are compared and contrasted with comparable features of other syntactic theories the remainder of the volume is devoted to detailed analyses of specific problems e g control case marking in a wide variety of languages e g mandarin chinese nootka mparntwe arrernte and turkish thus the works presented here illustrate well the strong cross linguistic approach to syntactic theory and description in role and reference grammar

this is the original and most authoritative reference of korean grammar providing a wealth of information a reference grammar of korean is invaluable to all those with a serious interest in the korean language by one of the world s leading scholars of east asian languages this is the first comprehensive book on korean grammar in english professor martin gives a detailed analysis of modern korean as it is spoken in both north and south korea providing explanations sample sentences and translation tips for virtually all the grammatical structures and usage patterns that puzzle the student he places modern usage in a historical context by tracking its development back to the middle korean of the fifteenth century making this book essential to those who wish to read older korean texts the history and use of korean writing systems both hangul and chinese characters are delineated with admirable clarity tables of chinese characters in common use including those with multiple readings and a valuable appendix of the radicals and their names will

prove indispensable to students seeking help in identifying and understanding the characters chapters include explanations of various romanization systems historical overview of phonological developments chinese vocabulary and characters number constructions and counting systems detailed listings of parts of speech and their functions description of verb stems and endings explanation of sentence construction and translation difficulties detailed appendixes include lists of korean surnames place names radical names and stem shapes a thorough index that makes the book easy to use this comprehensive volume deserves a place in every research library it is the definitive reference work for all those involved in korean studies

a reference grammar of dutch is aimed at english speaking students of dutch at beginner intermediate level it is designed to be practical and user friendly grammatical information is presented in short entries arranged in alphabetical order allowing students to gain easy access to specific points of grammar or problematic points of vocabulary as they encounter them in practice each grammatical rule is illustrated by simple everyday dutch examples of the kind likely to be encountered and used by the learner specialised linguistic terminology is kept to a minimum with a glossary of essential terms provided and charts and tables are included to help the student focus on the main points each entry is linked to a set of exercises which are graded according to complexity and there is a key to the exercises at the back of the book a thorough index is also provided

wappo is an indigenous language generally regarded as a language isolate which was once spoken in the russian river valley just north of san francisco california this reference grammar is based on the speech of laura fish somersal its last fluent speaker who died in 1990 and represents the most extensive data and grammatical research ever done on this language the grammar focuses on morphosyntax particularly nominal verbal and clausal structures and clause combining patterns from a functional typological perspective

a reference grammar of modern standard arabic is a comprehensive handbook on the structure of arabic keeping technical terminology to a minimum it provides a detailed yet accessible overview of arabic in which the essentials of its phonology morphology and syntax can be readily looked up and understood accompanied by extensive examples it will prove an invaluable practical guide for supporting students textbooks classroom work or self study and will also be a useful resource for scholars and professionals wishing to develop an understanding of the key features of the language

excerpt from the elements of old english elementary grammar and reference grammar the primary purpose of the authors of the elements of old english has been to produce an introductory book which will facilitate and expedite the teaching and study of old english in such classes as their own composed of graduate and advanced undergraduate students to attain this object we have in the elementary grammar selected and arranged the essential paradigms in the order of their relative importance into twenty four chapters designed as progressive lessons in this part of the book the less frequent variant forms have been omitted all the grammatical information necessary to enable a student to begin reading freely is contained in the first seven chapters each chapter includes a reading selection adapted to the advancing capacity of the student and accompanied by notes explaining those forms which have not yet been presented systematically in the chapters the primitive and prehistoric old english sound changes have been explained more fully on a historical and phonetic basis than is usual in such a book as this partly in order to clarify and rationalize the apparent irregularities of the inflections and partly in order to acquaint elementary students with the methods and principles of the historical study of language and linguistic change in the reference grammar is given a systematic and ordered treatment of old english phonology and morphology which serves to bridge the gap between the elementary grammar and such standard grammars as those of cosijn sievers wright and biilbring it was originally intended to include a considerable body of texts with notes and glossary but to do this at present would render the cost of the book prohibitive the elementary grammar has been used in mimeographed editions at the universities of chicago michigan and wisconsin at north western university and at other universities and colleges it has been twice re written and is now issued with the changes suggested by experience and criticism further criticisms and corrections from instructors and students will be welcomed about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

when laurence thompson s original vietnamese grammar first appeared in 1965 it went almost instantly to the top of the list of

required reading for serious students of the vietnamese language it has stayed there ever since but in recent years the title has become almost impossible to find either in bookstores or in libraries where original copies have often grown woefully ragged and marked up or are now simply missing in the meanwhile the author has become aware of a number of minor infelicities and typographical errors requiring correction thus both demand and scholarship have dictated this re edition from the editor s note

this reference grammar provides a description of mandarin chinese in familiar terms and enables the english speaking reader to transfer his her knowledge of english to the study of chinese many of the unique features of the language are treated through a comparison with semantically corresponding though syntactically different features in english aside from the conventional types of sentences special constructions are amply explained and illustrated for the reader understanding the specific meaning of each of these constructions is one of the central themes of the grammar this book contains a number of original analyses such as that of the shi de construction and the notion of continuum for the indiscrete nature of linguistic structure which should serve as a valuable reference source for both the language teacher and the profession of chinese linguistics
