how does perceptual experience make us knowledgeable about the world in this book nadja el kassar argues that an informed answer requires a novel theory of perception perceptual experience involves conceptual capacities and consists in a relation between a perceiver and the world contemporary theories of perception disagree about the role of content and conceptual capacities in perceptual experience in her analysis el kassar scrutinizes the arguments of conceptualist and relationist theories thereby exposing their limitations for explaining the epistemic role of perceptual experience against this background she develops her novel theory of epistemically significant perception her theory improves on current accounts by encompassing both the epistemic role of perceptual experiences and its perceptual character central claims of her theory receive additional support from work in vision science making this book an original

contribution to the philosophy of perception

writing a picture book is not as easy as jotting down 600 words full of cutesy language and calling it a day today's picture books are much more than moral stories and with such a short word count you can't waste a single syllable if you want to be competitive in this red hot kidlit market look no further straight from a publishing insider this comprehensive picture book guide is crammed with craft advice and groundbreaking original research writing irresistible picture books unpacks a survey of 1 000 upcoming picture book deals a breakdown of 80 modern and marketable picture book topics and in depth analysis of over 150 published picture books you can confidently internalize and write character theme plot conflict voice and structure for young readers you will get answers to the most common questions about picture book revision illustrations submission strategies query letters and more from an industry insider and former literary agent at one of the top children's book agencies in the nation if you're looking to get your work traditionally published writing irresistible picture books is the resource for you dive in and learn the best strategies to get your picture book noticed by literary agents and publishers and to leap into the hearts and onto the shelves of amazing young readers everywhere

this edited volume constitutes the first serious sustained examination of the study of children's books for children aged from 0 to 3 with contributions by scholars working in different domains and attempting to assess the recognition of the role and influence of children's literature on the cognitive linguistic psychological and aesthetic development of young children this collection achieves a balance between theoretical empirical historical and cross cultural approaches by examining the broad range of children's books for children under three years of age ranging from early concept books through wimmelbooks and abc books for small children to picture books that support the young child's acquisition of behavioral norms most importantly the chapters proffer new insights into the strong relationship between children's books for young children and emergent literacy drawing on current research in children's literature research visual literacy cognitive psychology language acquisition picture theory and pedagogy

celebrities and movie stars like everyone else die from a variety of causes including diseases vol 1 of this book and cancers vol 2 of this book when we ask if such causes of death are found encoded in the torah along with the encoded names of who died from them we find them all close together in one torah matrix from gen 11 to 1 samuel 10 17 for those uninitiated into the bible code mystery this might sound outlandish and impossible but viewing the many torah matrices in this book labeled clearly in black and white as secretly encoded facts staring us in the face might give pause to even the biggest skeptic volume 3 of this book will show the torah bible code matrices of celebrities and movie stars deaths by accidents murders overdoses and suicides their names found encoded in the five books of moses some with the year and location of

their death as another e book through author house later in 2014 thousands of similar results have been found by the author covering many sorts of historical events ranging from the names of victims of natural disasters e g fukushima ships sinking e g titanic planes and trains and cars crashing e g james dean assassinations worldwide over 4000 years e g an egyptian pharaoh jfk and john lennon nazi holocaust mass shootings aurora columbine tucson etc terror attacks benghazi boston marathon fort hood 9 11 and war casualties e g vietnam gulf war iraq afghanistan even though there are only about 50 or fewer personalities identified by name in each of these three volumes and shown encoded with how and where they died each volume could be expanded to hold many thousands of names and pages one name per page of matrix revealing those torah held secrets hidden for about 3400 years and revealed here to the world for the first time in recorded history
