for over half a century university of michigan programs in nuclear science and engineering have provided national and global leadership first through the research programs of the michigan memorial phoenix project and later through the educational and research activities of the faculty and students in the department of nuclear engineering and radiological sciences

chemtrails exposed a new manhattan project pulls back the curtain on one of the

most controversial topics of our time geoengineering and weather control through meticulous research and hard evidence this book reveals how powerful global elites shadowed institutions and scientific gatekeepers have shaped the skies above us every applicable government agency and almost all mainstream media outlets claim that chemtrails are merely a conspiracy theory they say that the lines in the sky are harmless condensation trails and that jet aircraft have always produced emissions that can linger in the sky for hours as they spread out and form a hazy cloud cover they say that anybody who asserts that aircraft are routinely spraying us with toxic materials is crazy if this is so then why are we consistently seeing anomalously high levels of toxins in rainwater as well as in ambient air samples why are there hundreds of scientists and scores of scientific organizations advocating for spraying substances from aircraft and calling it geoengineering why is there a world famous phd scientist who has in a long series of peer reviewed journal articles made the case for chemtrails and shown detailed evidence of their harmful effects how do we have whistleblowers from the air force and the environmental protection agency how is it that there is a huge detailed chronologically consistent body of evidence supporting the notion that the lines in the sky are part of a global weather modification project with roots going back over 100 years this is just scratching the surface this book presents the evidence that the government and the mainstream media ignore this book provides the evidence that what is commonly referred to today as geoengineering is an incredibly large ongoing operation involving the open air spraying of tens of thousands of megatons of toxic waste annually from high flying jet aircraft believe it or not the media and the government have not been telling the truth if you seek truth behind the haze chemtrails exposed is your definitive guide to the unseen forces shaping our world s climate science and future
