Perl Patrick Wright Lawrence Wodehouse Ann Lee Morgan Jonathan Barnett*

in his famously controversial style martin pawley reviews a selection of books on the architecture of the 20th century books that we should have read and indeed would have read if only we'd had the time pawley digests and critiques them for us with an agility that has kept the readers of his newspaper and magazine columns provoked and amused for several decades he provides us with both ammunition and armour encouraging us to fight off the soporific pr led commentary of today and to rekindle the passion of the architectural debate martin pawley is an award winning writer he has written many books on architecture for uk and us based publishers and writes a regular column for national and international architectural magazines throughout his career he has reviewed books for the guardian the observer the london review of books the architects journal design book review blueprint architectural design building world architecture architecture review designer and the riba journal many of which are published here gain knowledge on all the major books on 20th century architecture by reading just one hear the opinions of pawley and learn about the debates on the development of architectural theory in the 20th century

a juvenile not unique but a rarity for a university press the publisher characterizes skammy about skamandrios as an exciting story of adventure and mighty deeds skammy struggles with great questions of life death and immortality it offers models of human thought behavior and

morality ranging from heroism courage integrity and endurance to cowardice and treachery

to strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before world war ii in making these decisions we have been assisted by an advisory board as in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day editor s note

encapsulates 500 years of urban planning barnett an urban designer is skeptical about the possibility of successful urban design given the matrix of powerful social and economic forces within which the profession must operate as a keen student of jane jacobs s death and life of great american cities he is unafraid of the street and he knows the pitfalls of unbridled idealism as well this is neither a textbook nor a social and architectural history but rather uniquely a survey of design strategies pithy and provocative
