this new work demonstrates how the outcome of the first world war has formed the modern world we live in today the first world war was the great war for its leading participants in revisiting the events of 1914 1918 a century on jeremy black considers how we now look at the impact of the conflict across the globe and how it came to be world war i in our consciousness for millions both soldiers and civilians the conflict proved fatal the suffering and loss of the war provides much of its resonance and significance but this book seeks to throw light beyond this not least in asking how it ended in victory and defeat casting aside the conventional narrative jeremy black returns to a vast range of original sources and investigates not only the key events of the war but its consequences in restructuring the old order as its significance has changed with time and not only with the loss of first hand testimony black considers the struggle not only in its historical context but through its memorialisation today

in 2008 alan keyes a republican presidential candidate in 1996 and 2000 described the relationship between the declaration of independence and the constitution of the united states in the following way the doctrine of unalienable rights is to the constitution what the laws of physics are to architecture or engineering those laws are not repeated in every plan or architect's drawing but they are assumed and must be respected or the results will be defective and dangerous it is clear that the founding principles of the declaration are intimately connected with the constitution and it
