the subject since its appearance and apparently short triumph some 250 years ago the concept of non literary taste remained the linchpin of aesthetic theory and practice but also a category outreaching aesthetics taste as the personal unity of the production theory and criticism of art and literature which was still largely taken as a given in the eighteenth century has meanwhile given way to a highly differentiated art world in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making the critical role of taste judges ratings and rankings in the feuilleton politics and social media on the one hand and the responding search for new canons on the other have had a huge impact on the academic and popular discourse today however taste s impact on society is in fact all encompassing and yet without getting even close to the magnetic north of the academic compass after taste fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines discourses and disciplinary dimensions of taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day the guiding goal is a post disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts three intertwined research hypotheses form the guiding goal of an overall study of the agencies of taste its institutionalizations and expert cultures the 1 first part provides a missing systematic perspective on the concept of taste as a key factor for understanding the human faculties value theories and practices of valuating the 2 second part traces the events at the peak of taste s systematic and historical trajectories up until the late eighteenth century and verifies the historiographical hypothesis about the instrumentality of taste for the production reception and distribution of culture the 3 third part reconstructs the major moments in which the contested concept of taste experiences its post disciplinary rehabilitation in preparation for its future productive usage in the academic and popular discourses and practices it shows how the category of taste became the foundation legitimation and the catalyst for the emerging division of labour faculties and disciplines confirming the hypothesis of the immense impact and actuality of taste in the contemporary world
