also provides other critical financial factors in percentages including debt ratio return on assets and return on equity and profit margin

master s thesis from the year 2010 in the subject business economics investment and finance grade 2 0 reutlingen university business adminstration language english abstract the global financial and economic crises resulted for many corporations in a downgraded credit rating within the last 2 to 3 years even a large percentage of them defaulted on their credit obligations due to inherent operational factors the importance of credit ratings will play an even more central role under the currently discussed new basel capital accord basel iii standard poor s 2010 basel iii for global banks the purpose of this research is to explore the relationship between long term credit ratings and selected financial ratios that can be derived by public information such information can be very valuable for companies in order to have a slight control over their credit rating obtained by rating agencies as well as in negotiations with banks and other outside creditors the research design is based on three automotive manufacturers and involves their credit rating over the last decade the data for the financial ratios was collected from respective financial statements the study is based on a correlation and multiple regression analysis using the minitab minitab data analysis software pennsylvania usa software as a statistical platform a step wise approach determined the regression equation with the highest significance the equations were used to detect those variables that have the strongest impact on the credit rating the results for automotive companies with a solid statistical data set are surprisingly high in significance with an adjusted coefficient of determination of over 90 overall it is not feasible to mention which one of the seventeen financial ratios explains the variation in credit rating most reliable because such a statement depends always on the individual company for example to explain the changes in the rating for the ford motor company the following six ratios turned out to be the most significant ones total equity to total assets sales to fixed assets sales to inventory net income to total equity total equity to long term liabilities and ebit to sales each regression equation consisted mostly of different financial ratios apart from the fact that financial information is only one aspect of the credit rating determination process the attained results are valid and valuable insights for all external and internal rating analysts the global financial and economic crises resulted for many corporations in a downgraded credit rating within the last 2 to 3 years

almanac of business industrial financial ratios 2015

arranged by sic code this work includes financial data and important ratios from an aggregate number of establishments within an industry examination of this information establishes present and future norms from which a venture s performance can be judged

whether used as predictors or indicators of stock prices financial risk merger candidates or bond yields financial ratios have been and continue to be a popular tool for analyzing a firm and its performance practitioners and academics who employ financial ratios often compare and contrast across several industries but such evaluations assume that the ratios of one industry measure the same underlying concepts as the ratios of another this book provides evidence on the comparability of financial ratios across several industries assessing the similarity or dissimilarity of ratios among industry taxonomies or groups of ratios extending previous studies that focused primarily on manufacturing firms this work surveys a wide variety of both manufacturing and retail corporations and determines the classification patterns of their respective financial ratios the taxonomies of thirty two ratios in seven representative industries are examined for the ten year period from 1978 through 1987 two introductory chapters detail the nature of the research the data utilized variables employed and statistical methodologies as well as providing a brief summary of the results a third chapter furnishes results for the entire economy by factors of return cash flow cash position inventory sales liquidity and debt while seven separate chapters describe the study s conclusions for each of the primary industries automobile and aerospace chemical rubber and oil electronics food retail steel and textile the work concludes with a summary of the study and its conclusions and an examination of the limitations of this type of research and possibilities for its extension this book will be a valuable practical resource for accounting and finance professionals as well as an important reference for courses in finance accounting and management public academic and business libraries will also find it a useful addition to their collections

seminar paper from the year 2016 in the subject business economics miscellaneous grade 1 2 post university course economics bwl betriebswirtschaftslehre language english abstract financial ratios are helpful indicators of a firm s performance and financial situation they are used to analyze trends and compare the company performance over time or to other

competitors therefore it is important to have a clear understanding and set of financial ratios which can be used for that purpose this paper describes some of the most important financial ratios specifically the following ratios will be explained liquidity ratios quick ratio cash ratio financial leverage ratios long term debt ratio times interest earned ratio profitability ratios profit margin return on assets return on equity total asset turnover other ratios price earnings ratio value ratio each ratio has its own value and provides specific information this paper will less focus on how to calculate the ratios but more on which kind of information they provide about a firm in addition examples will be given on how to leverage the different ratios

this updated and revised edition of editor frank j fabozzi s classic resource includes the most current information available about fixed income securities how to evaluate this information and how it can be used to enhance returns in particular there is updated and expanded coverage on bond market indexes the high yield bond market international bond markets and instruments brady bonds standard poor s sovereign ratings criteria high yield analysis of emerging markets debt mortgages and overview of mortgage backed securities collateralized mortgage obligations nonagency cmos commercial mortgage backed securities auto loan backed securities home equity loans hels and hel backed securities manufactured housing backed abs credit card abs evaluating amortizing abs a primer on static spread global corporate bond portfolio management and international bond investing and portfolio management book jacket title summary field provided by blackwell north america inc all rights reserved
