the movement away from teacher centered toward student centered learning and teaching sclt in higher education has intensified in recent decades yet in spite of its widespread use in literature and policy documents sclt remains somewhat poorly defined under researched and often misinterpreted against this backdrop the routledge international handbook of student centered learning and teaching in higher education offers an original comprehensive and up to date overview of the fundamentals of sclt and its discussion and applications in policy and practice bringing together 71 scholars from around the world the volume offers a most comprehensive and up to date overview of the fundamentals of sclt and its applications in policy and practice provides beacons of good practice that display how instructional expertise manifests itself in the quality of classroom learning and teaching and in the institutional environment and critically discusses challenges new directions and developments in pedagogy course and study program design classroom practice assessment and institutional policy an essential resource this book uniquely offers researchers educators and students in higher education new insights into the roots latest thinking practices and evidence surrounding sclt in higher education

this book addresses the need to diversify mainstream forms of assessment currently used in higher education in order to re establish the focus on the learning process making assessment central to student learning is about returning to what current research emphasises the primary beneficiary of assessment should be the student to achieve this in the assessment context students and tutors must engage in a process of dialogue and feedback it seems to be widely accepted that assessment succeeds when the learner monitors identifies and then is able to bridge the gap between current learning achievements and agreed goals it is however more questionable whether adequate opportunities are given to students to be active participants in closing what has been termed the loop contributors to this book have responded in different ways to the challenge of enhancing learning through assessment offering reasons for the lack of focus on learning within assessment processes as well as suggesting possible solutions the chapters demonstrate a balance between innovation and practicality drawing on the underpinning theories the result is both rich in discussion and an extremely useful resource for practitioners this book was originally published as a special issue of assessment evaluation in higher education

a study of the methods meanings and evaluation of assessment in higher education which stresses the importance of a multi objective approach to teaching and learning in the design of curriculae
