an understanding of gonorynchiform morphology and systematic inter and intra relationships has proven vital to a better understanding of the evolution of lower teleosts in general and more specifically of groups such as the clupeiforms e.g. herrings and anchovies and ostariophysans e.g. carps minnows and catfishes this book examines the

this volume challenges prevailing understanding of the two great founders of sociological thought in a detailed and systematic way the author demonstrates how marx and durkheim gradually developed the fundamental frameworks for sociological materialism and idealism while most recent interpreters of marx have placed alienation and subjectivity at the centre of his work professor alexander suggests that it was the later marx's very emphasis on alienation that allowed him to avoid conceptualizing subjectivity altogether in durkheim's case by contrast the author argues that such objectivist theorizing informed the early work alone and he demonstrates that in his later writings durkheim elaborated an idealist theory that used religious life as an analytical model for studying the institutions of secular society

this volume presents definitive essays by internationally renowned experts and innovative younger scholars on the wide range of approaches used by art historians past and present to analyze images objects buildings and performances it provides critical considerations of key methodologies from formalism and iconography to social history and psychoanalytic approaches it foregrounds fundamental concepts from the artist the beholder and the frame to museums canons and periodization at the same time it broadens art itself as a category by considering photographs digital media performance architecture and visual culture more generally the chapters also explore new approaches and new points of view that have expanded art history's remit in exciting ways in recent years by addressing growing interest in race ethnicity and the legacies of colonialism gender identity and sexuality ecocritical approaches to making and consuming art materiality and the senses digitally informed methods the nascent field of disability studies and scientific research on vision and on the technical analysis of works of art this comprehensive collection will be indispensable for students and scholars of art history as well as for readers coming from other disciplines who are seeking fresh approaches to visual and material culture
