allowing students to truly grasp the functions and frequent dysfunctions of America's foreign policy agenda this book has long set the standard in guiding students through the complexities of the field

during World War II the Japanese government created a research bureau the Chōsabu to study occupied Singapore. The bureau's reports on Singapore's economy and society reproduced here in translation covered population and living standards, prices, wages, currency and inflation, rationing, labour usage, food production and supply, and industrialization. Syonan's military and civilian administrators drew on Chōsabu research in formulating social and economic policy. The research takes on added importance because

the Japanese destroyed most records of their wartime administration that leaves the chōsabu reports as one of the few first hand Japanese sources to have survived the war the translation allows a fuller understanding of the impact of the war and occupation than hitherto possible introductory chapters by the editors analyse the reports in light of wartime events in Singapore and Japanese occupation policies and discuss the chōsabu authors and their place in the history of Japanese economic thought

Grunden's analysis of this fundamental flaw in the Japanese war effort seamlessly weaves together science technology and military history to provide an entirely unique look at a crucial but understudied aspect of World War II comparing the science and weapons programs of all the major combatants he demonstrates that Japan's failure was nearly inevitable given its paucity of strategic resources an inadequate industrial base the absence of effective centralized management to coordinate research military hostility toward civilian scientists and bitter interservice rivalries in the end Japan could not overcome these obstacles and thus failed to make the transition to the kind of big science it needed to ward off its enemies and dominate the Far East book jacket

Paddock also includes new sections on American psychological warfare in the Pacific the Army Rangers the 1st Special Service Force and American led guerrillas in the Philippines book jacket

The third volume in a magisterial five volume study of the political economy of American warfare

Individual liberty is ingrained in American culture yet in contrast to this cherished ideal American men were inducted into military service under a system that flourished for more than twenty years before its rationalization was seriously questioned by more than a small minority of citizens analyzing this paradox George Flynn provides the first comprehensive look at an institution that managed to sustain political and public favor through two wars before dying out under a barrage of protests during a third placing the American draft within a historical context he shows how social and political considerations determined the character of conscription in the United States the draft developed as it did he argues not mainly because of military needs or strategy but because of political decisions initiated by civilians with nonmilitary agendas explaining why the draft remained relatively immune to political criticism prior to the Vietnam conflict Flynn chronicles the draft's military and strategic successes and failures in America's mid century wars he shows how major institutions and lobbies representing science education and various professions and religions influenced it and how ultimately and ironically the selective character of the draft eventually made the system inequitable and helped cause its downfall book jacket title summary field provided by Blackwell North America Inc all rights reserved

Conversino's story is as interesting as it is unfamiliar and succeeds in opening up Frantic's

many dimensions including the personal as well as the political strategic and operational his revelations regarding the interactions between american servicemen and ukrainian russians are especially valuable and underscore the immense difficulties of implementing alliances at the grass roots level dennis showalter author of tannenberg clash of empires

vols 5 include the monthly rotogravure supplement uncle sam s news reel issued as section 2 from may 24 1937 to dec 11 1939 30 54 cm

an animated adaptation of the story of the same title by maurice sendak in which a small boy makes a visit to the land of the wild things tells how he tames the creatures and returns home for primary grades
