is the symbolical narrative of the sexes and an apotheosis of phallicism under astronomical and physiological personations the higher keys to the archaic wisdom religion that were once humanity's common property are now obfuscated no key to the universal language system can ever open the mysteries of creation in a work in which whether through design or carelessness nearly every sentence has been made to apply to the latest outcome of religious views to phallicism and to nothing else plato's motto god geometrizes was accepted by both aryaans and jews but while the former applied their science of correspondences to veil the most spiritual and sublime truths of nature the latter used their acumen to conceal only one of the mysteries of evolution to them the most divine namely that of birth and generation and then idealised the male organ while composing their national allegories the jews never had more than three keys out of seven the astronomical the numerical and above all the purely anthropological or rather physiological key this resulted in the most phallic religion of all and this has now passed part and parcel into christian theology religious anthropolatry stimulated the exercise of black left hand magic and overshadowed the archaic wisdom religion that of the sons of god the b ne elohim of old this double sin led to the great war and the great flood of atlantis and is the forerunner of worse calamities to come self gratification and phallic worship are the main causes of suffering in today's world an old simple symbol of the holy of holies was a white tent in egyptian and hebrew temples it evolved into a four colour curtain suspended from four pillars then the sanctuary became the holy of holies and the arcanum anthropomorphised phallicised sullied with indecency and polluted by gross matter for the pantheists the chaste sarcophagus embraced the periodical reawakenings of cosmos nature and man to new objective existences but the jews whose realism was as practical and gross in the days of mooses as it is now viewed it differently their king david danced uncovered before the ark of the covenant anxious to appear vile for the sake of his lord they even embellished the chaste ark with two cherubs facing each other and their wings spread in such a manner as to form a perfect yoni yet in india the ark has always been symbolised by the golden cow in egypt by the sarcophagus or female principle and in greece by the crescent form of the new moon the holy spirit is now surrounded by the unholy dancers of the temple ashtoreth astarte is a reflection of the chaldean nuah or universal mother the female noah then we have belita or tamtu chaldean for sea the mother of the city of erech who became eve mary latin for sea the virgin of the latin church standing on the crescent moon and at times on the globe to vary the program plenty of other variations of navis latin for ship from greek ???? the ship like form of the crescent which blends in itself all those common symbols of the ship of life such as noah's ark the yoni of the hindus and the ark of the covenant i.e the universal mother of gods are now found in every christian church as the nave ablative case of navis the mystic word alm that mohammed prefixed to many chapters of the koran alludes to the immaculate virgin of the supreme heavens it is from the same root that comes the word almeh the egyptian dancing girls virgins of the same type as the nachnis of india and the female qedoshim of the jewish temples even io the pillar and circle the first decimal number or sun and moon was desecrated jehovah is the originator of measures and of the british inch he is merely a composite name for membrum virile and eve a hermaphrodite jehovah is in one sense noah or literally translated inch jehovah and mooses is one more

permutation still the holy of holies is an international symbol the worship of the god in the ark dates only from david and for a thousand years israel knew of no phallic jehovah now the old kabbalah edited and re edited has become tainted with it the passage through the golden cow in the same stooping position as the one shown in the gallery of the pyramid of cheops identifies man with jehovah in hebrew esotericism the difference lies in the spirit of interpretation with the hindus as with the ancient egyptians that spirit was and is entirely metaphysical and psychological with the hebrews realistic and physiological with the ancient aryan the stooping man at the entrance of the sanctum sanctorum symbolises the virtuous man in his trial of life christos in humiliation who is about to pass through the matrix of mother nature in order to regain his former spiritual status that of pre natal christos the divine man with the semite the same stooping man stands for the fall of spirit into matter apotheosized by dragging deity down to the level of animal man the semite interpretations emanated from and were pre eminently those of a small tribe thus marking its national features and the idiosyncratic defects that characterize many of the jews to this day gross realism selfishness and sensuality an abyss separates hinduism from christian judaism the religion of the hindu detaches him from earth the religion of the jew being a wise prudential feeling grounded on mere calculation attaches him to earth built solely on phallic worship judaism has become a religion of hate and malice toward everyone and everything outside themselves in hinduism the holy of holies is a universal abstraction whose dramatis personæ are infinite spirit and nature in christian judaism it is a personal god outside of nature and the human womb i e a phallic god and his image on earth the man of flesh jehovah is simply a fancy and a perversion of the holy name it is the esoteric teachings and the initiates of the future whose mission is and will always be to redeem and ennoble once more the primitive conception so sadly profaned by its crude and gross application to exoteric dogmas and fanciful personations by theological and ecclesiastical religionists the secret or esoteric worship of the jews was the same pantheism that the vedantin philosophers are reproached with today jehovah was a substitute for purposes of an exoteric national faith and had no importance or reality in the eyes of the erudite priests and philosophers jehovah can only be regarded as the creator of our globe and its heaven namely the firmament a grotesque verse from exodus kabbalistically interpreted by j ralston skinner the semites seem to have had no other or higher purpose in life than that of procreating their species they had no aspirations towards the ideal the real holy of holies is a ray of absolute truth it is our innermost and highest spiritual consciousness we should not blaspheme against it by ascribing to it our finite conceptions
