the violent use of armed unmanned aircraft drones is increasing worldwide but uncertainty persists about the moral status of remote control killing and why it should be restrained practitioners observers and potential victims of such violence often struggle to reconcile it with traditional expectations about the nature of war and the risk to combatants addressing the ongoing policy concern that state use of drone violence is sometimes poorly understood and inadequately governed the book's ethical assessments are not restricted to the application of traditional just war principles but also consider the ethics of artificial intelligence ai virtue ethics and guiding principles for forceful law enforcement this edited collection brings together nine original contributions by established and emerging scholars incorporating expertise in military ethics critical military studies gender history international law and international relations in order to better assess the multi faceted relationship between drone violence and justice

this book is about the metanarrative and metafictional elements of j m coetzee's novels it draws together authorship readership ethics and formal analysis into one overarching argument about how narratives work the boundary between art and life on the basis of coetzee's writing it reconsiders the concept of metalepsis challenges common understandings of self reflexive discourse and invites us to rethink our practice as critics and readers this study analyzes coetzee's novels in three chapters organized thematically around the author's relation with character reader and self author and character are discussed on the basis of *foe* *slow man* and coetzee's nobel lecture *he and his man* stories featuring the character elizabeth costello or the figuration elizabeth curren serve to elaborate the relation of author and reader the study ends on a reading of *summertime* *diary of a bad year* and *dusklands* as coetzee's engagement with autobiographical writing analyzing the relation of author and self it will appeal to readers with an interest in literary and narrative theory as much as to coetzee scholars and advanced students

the first book to argue for the ethical turn in derrida's work this new edition contains three new appendixes and a new preface where critchley reflects upon the origins motivation and reception of the ethics of deconstruction

the oxford handbook of ethical theory is a major new reference work in ethical theory consisting of commissioned essays by leading moral philosophers ethical theories have always been of central importance to philosophy and remain so ethical theory is one of the most active areas of philosophical research and teaching today courses in ethics are taught in colleges and universities at all levels and ethical theory is the organizing principle for all of them the handbook is divided into two parts mirroring the field the first part treats meta ethical theory which deals with theoretical questions about morality and moral judgment including questions about moral language the epistemology of moral belief the truth aptness of moral claims and so forth the second part addresses normative theory which deals with general moral issues including the plausibility of various ethical theories and abstract principles of behavior examples of such theories are consequentialism and virtue theory as with other oxford handbooks the twenty five contributors cover the field in a comprehensive and highly accessible way while achieving three goals exposition of central ideas criticism of other approaches and putting forth a distinct viewpoint

care is a human ability we all need for growing and flourishing it implies considering the needs and interests of others and the quality of how we relate to each other is often defined by care while the value of care in private life is widely recognized its role in the public sphere is contested and subject to political debates in work organizations instrumentality frequently overrides considerations for colleagues and co workers well being while relationships are often sacrificed in the service of performance and meeting organizational targets the questions this volume attempts to address concerns the organizational conditions that make care flourish and how a caring organization functions in practice specifically we examine what it means to care for each other and what enhances caring behaviours in organizations the volume ultimately focuses on how caring relations can contribute to making organizations better places in this perspective care involves the recognition of and the limitations of work as a key aspect of personal and social identity because care exceeds the sphere of individual intimacy the book will also centre on the necessity for building caring institutions through a political process that considers the needs contributions and prospects of many different actors this book aims to contribute to academic discussions on care in organizations care work business and organizational ethics diversity caring leadership well being in organizations and research ethics managers consultants policy makers and students will find reflections about the goodness of care in organizations and guidance about the ethical and practical difficulties of pursuing the project of building caring organizations
