it is well known that the understanding of security has changed since the end of the cold war this in turn has impacted the characteristics of intelligence as states have needed to improve their security policies with new intelligence tactics this volume investigates this new state of play in the international arena

this management text on learning covers recognising the importance of achieved learning understanding the learning process the learning cycle and learning styles preferences taking the best advantage of learning opportunities creating and implementing a personal development plan and encouraging and managing a learning culture

franklin roosevelt s intentions during the three years between munich and pearl harbor have been a source of controversy among historians for decades barbara farnham offers both a theory of how the domestic political context affects foreign policy decisions in general and a fresh interpretation of fdr s post munich policies based on the insights that the theory provides between 1936 and 1938 roosevelt searched for ways to influence the deteriorating international situation when hitler s behavior during the munich crisis showed him to be incorrigibly aggressive fdr settled on aiding the democracies a course to which he adhered until america s entry into the war this policy attracted him because it allowed him to deal with a serious problem the conflict between the need to stop hitler and the domestic imperative to avoid any risk of american involvement in a war because existing theoretical approaches to value conflict ignore the influence of political factors on decision making they offer little help in explaining roosevelt s behavior as an alternative this book develops a political approach to decision making which focuses on the impact that awareness of the imperatives of the political

context can have on decision making processes and through them policy outcomes it suggests that in the face of a clash of central values decision makers who are aware of the demands of the political context are likely to be reluctant to make trade offs seeking instead a solution that gives some measure of satisfaction to all the values implicated in the decision

in this book the author assesses the main arguments against the possibility of knowledge and defends a reliabilist theory of knowledge that belongs firmly in the truth tracking tradition

this book constitutes the refereed proceedings of the seventh chinese semantic symposium and the second chinese science conference csws 2013 held in shanghai china in august 2013 the 14 revised full papers presented together with 6 short papers and 3 poster papers were carefully reviewed and selected from 48 submissions the papers cover a wide range of topics including semantic search ontology reasoning social semantic knowledge graph etc

from dating to choosing permanent partners and from raising children to relating to one s parents and even the departed this guide helps readers use their intuition to make the right choices

a thorough introduction to group theory this highly problem oriented book goes deeply into the subject to provide a fuller understanding than available anywhere else the book aims at not only teaching the material but also helping to develop the skills needed by a researcher and teacher possession of which will be highly advantageous in these very competitive times particularly for those at the early insecure stages of their careers and it is organized and written to serve as a reference to provide a quick introduction giving the essence and vocabulary useful for those who need only some slight knowledge those just learning as well as researchers and especially for the latter it provides a grasp and often material and perspective not otherwise available
