the sonderkommando the special squad of enslaved jewish laborers who were forced to work in the gas chambers and crematoria of auschwitz birkenau comprise one of the most fascinating and troubling topics within holocaust history as eyewitnesses to and unwilling abettors of the murder of their fellow jews they are the object of fierce condemnation even today yet it was a group of these seemingly compromised men who carried out the revolt of october 7 1944 one of the most celebrated acts of holocaust resistance this interdisciplinary collection assembles careful investigations into how the sonderkommando have been represented by themselves and by others both during and after the holocaust

focussing on prisoner clothing in the auschwitz concentration camp dress in auschwitz examines clothing s profound importance to the inmates physical psychological and spiritual survival through primary sources and survivors experiences

hermann langbein was allowed to know and see extraordinary things forbidden to other auschwitz inmates interned at auschwitz in 1942 and classified as a non jewish political prisoner he was assigned as clerk to the chief ss physician of the extermination camp complex which gave him access to documents conversations and actions that would have remained unknown to history were it not for his witness and his subsequent research also a member of the auschwitz resistance langbein sometimes found himself in a position to influence events though at his peril people in auschwitz is very different from other works on the most infamous of nazi annihilation centers langbein s account is a scrupulously scholarly achievement intertwining his own experiences with quotations from other inmates ss guards and administrators civilian industry and military personnel and official documents whether his recounting deals with captors or inmates langbein analyzes the events and their context objectively in an unemotional style rendering a narrative that is unique in the history of the holocaust this monumental book helps us comprehend what has so tenaciously challenged understanding

an important contribution to the ongoing debate about what the allies knew about the concentration camps during the second world war

this book tells a story to shake the conscience of the world it is the catalogue of the first ever traveling exhibition about the auschwitz concentration camp where 1 1 million people mostly jews but also non jewish poles roma and others lost their lives more than 280 objects and images from the exhibition are illustrated herein drawn from the auschwitz birkenau state museum and other

collections around the world they range from the intimate such as victims family snapshots and personal belongings to the immense an actual surviving barrack from the auschwitz iii monowitz satellite camp all are eloquent in their testimony an authoritative yet accessible text weaves the stories behind these artifacts into an encompassing history of auschwitz from a polish town at the crossroads of europe to the dark center of the holocaust to a powerful site of remembrance auschwitz not long ago not far away is an essential volume for everyone who is interested in history and its lessons

this book is the first to bring together analyses of the full range of post war testimony given by survivors of the sonderkommando of auschwitz birkenau the auschwitz sonderkommando were slave labourers in the gas chambers and crematoria forced to process and dispose of the bodies of those who were murdered they have been central to a number of key topics in post war debates about the shoah collaboration moral compromise and survival resistance representation and the possibility of bearing witness their testimony however has mostly met with a reluctance to engage in depth with it moving from testimonies produced within the event the scrolls of auschwitz and the sonderkommando photographs to testimonies given at trials and for video archives and to the paintings of david olère and the film shoah by claude lanzmann this book demonstrates the importance of their witnessing in the post war memory of the holocaust and provides vital new insights into the questions of representation memory gender and the shoah

this is the first hand account of rudolf s vrba s extraordinary experiences as a registrar at auschwitz as well as the story of his daring escape although a testimonial full of unbearable vivid horror and suffering it isn t this that makes the book so gripping and so important what endures is vrba s personality his unbelievable physical tenacity and incredibly enough his sense of humour vrba was imprisoned in auschwitz for twenty one months and seven days he then escaped with his fellow

slovak alfred weltzler as they made their way home they carried with them seared in their immediate memory the true story of the camp the hitherto unknown destination of jewish deportees from all over europe initially conceived as a serialisation in the daily herald in 1960 this full account is being published for the first time in twenty years it is a must read for any person interested in understanding not only the inner workings of the prison camp with the expected horrors and brutality but also a personal story of strength survival and guile

a large number of all the orders ever issued by the various commanders of the infamous auschwitz camp have been preserved they reveal the true nature of the camp with all its daily events in these orders for example the decent treatment of inmates the prohibition of their mistreatment as well as the improvement of the hygienic conditions were emphasized a topic discussed with particular frequency is the visit of family members of ss members to auschwitz and their constant entering and exiting of the camp even the children of ss members were hanging around in the camp and were apparently playing with the inmates there were even plenty of sightseeing tours of the camp during the war which some orders tried to regulate horticulture growing fruit trees picking flowers and much more were addressed in these orders only one thing is not to be found in these orders the slightest trace of an indication that something outrageous was going on at auschwitz on the contrary many orders are in clear and insurmountable contradiction to claims that inmates were being mass murdered this book contains a selection of the most important of these orders along with comments that put them in their proper historical context

a history of the holocaust is a detailed factual account of what happened across europe during the holocaust with balanced coverage of each country the holocaust was unique within the context of the second world war because jews were disproportionately represented among the civilian casualties in that conflict over fifty million people died as a result of the application of total war

twelve per cent of these were jews at the time jews constituted less than one quarter of one per cent of the world s population this book is intended as a textbook not a philosophical interpretation of the holocaust written in a highly accessible style it is addressed to students and will inspire them to read more about the subject and to question the problems of the world

the book is composed of statements made by deniers and kuttner s rebuttals based on historical documents and testimonies presents the main arguments put forward by holocaust deniers some of them allege that the holocaust did not take place at all others try to diminish its scope or relativize it some revisionists although they do not deny the fact of the mass murder of jews challenge the existence of killing centers and gas chambers or try to absolve perpetrators or collaborator groups of responsibility many allegations attack the jews in one way or another and border on justification of the nazi genocide

a shocking account of nazi genocide and the inhuman conditions in auschwitz but equally shocking is the initial disbelief with which the revelations were met alfred wetzler was a true hero his escape from auschwitz and the report he helped compile telling for the first time the truth about the camp as a place of mass murder led directly to saving the lives of 120 000 jews no other single act in the second world war saved so many jews from the fate that hitler and the ss had determined for them sir martin gilbert together with another young slovak jew rudolf vrba both deported in 1942 the author succeeded in escaping from the notorious death camp in the spring of 1944 there were some very few successful escapes from auschwitz during the war but it was these two who smuggled out the damning evidence a ground plan of the camp constructional details of the gas chambers and crematoriums and most convincingly a label from a canister of cyclone gas the book is cast in the form of a novel to allow information not personally collected by the two fugitives but provided for them by a handful of reliable friends to be included nothing however has been invented from the

introduction by dr robert rozett wetzler is a master at evoking the universe of auschwitz and especially his and vrba s harrowing flight to slovakia the day by day account of the tremendous difficulties the pair faced after the nazis had called off their search of the camp and its surroundings is both riveting and heart wrenching shining vibrantly through the pages of the memoir are the tenacity and valor of two young men who sought to inform the world about the greatest outrage ever committed by humans against their fellow humans

an exploration of the fact and fiction relating to the history of jewish revenge during and after the holocaust

based on the powerful true story of auschwitz prisoner number 3444 wilhelm brasse whose photographs helped to expose the atrocities of the holocaust horror in sharp focus important because the world must know john lewis stempel daily express when germany invaded wilhelm brasse s native poland in 1939 he was asked to swear allegiance to hitler and join the wehrmacht he refused he was deported to auschwitz concentration camp as political prisoner number 3444 a trained portrait photographer he was ordered by the ss to record the inner workings of the camp he began by taking identification photographs of prisoners as they entered the camp went on to capture the criminal medical experiments of josef mengele and also recorded executions between 1940 and 1945 brasse took around 50 000 photographs of the horror around him he took them because he had no choice eventually brasse s conscience wouldn t allow him to hide behind his camera first he risked his life by joining the camp s resistance movement faking documents for prisoners trying to smuggle images to the outside world to reveal what was happening then when soviet troops finally advanced on the camp to liberate it brasse refused ss orders to destroy his photographs because the world must know he said for readers of the librarian of auschwitz and the boy who followed his father into auschwitz this powerful true story of hope and courage lies at the very centre of

holocaust history a remarkable tale of survival against the odds an enthralling book the sydney morning herald brasse has left us with a powerful legacy in images because of them we can see the victims of the holocaust as human and not statistics fergal keane

this volume brings together some important and stimulating contributions to our understanding of nazi genocide these readings have been selected for the purpose of acquainting students with a variety of views some of classic stature others very recent after an introduction that contains a brief historical overview of the holocaust the book explores problems of definition and origins and then looks at the motivation of holocaust perpetrators next it compares conflicting views about the victims survival strategies and women s experience of the camps and examines charges that the victims failed to put up any significant resistance to their tormentors the book then inquires into the attitudes and actions of bystanders while the victims were being murdered and finally considers the possibilities that some jews might have been saved from the gas chambers through military action or intercession by outside forces pref
