the book describes current research into all aspects of craftwork in ancient egypt

describes ancient egypt s vast resources and the processes that incorporated them in daily life including animal products building materials cosmetics perfumes and incense fibers glazed ware glass mummification materials and more

there are several periods of egyptian history lasting in some cases two or three hundred years about which very little is known and even of the periods that are better known the information is very partial with such gaps in the existing knowledge a final statement regarding the earliest or latest production of use of any material is impossible and all that can be done is to give the dates for which the various materials have been recorded

the first science for ancient egyptian materials and technologies conference was held under the auspices of his excellency pr khaled el enany at the manial palace museum in cairo from 4 to 6 november 2017 its aim was to provide a venue at which specialists in the application of physical and chemical sciences to archaeology could meet present their research and exchange ideas above all it was intended to highlight the importance of archaeological sciences and interdisciplinary approaches within egyptology this volume brings together papers on high level studies relevant to all fields of archaeometry carried out both on museum objects and at excavation sites it provides a general overview of the impressive possibilities that this science offers to various fields and opens the way for a radical improvement of its application in archaeological research in egypt
