every company wants to turn its customers into true and lifelong fans in this book roman becker and gregor daschmann the  
discoverers of the fan principle and fanomics demonstrate how this can be actually accomplished they transfer the  
mechanisms of fan relationships from sports music and art to those between companies and customers what turns a  
customer into a fan customer how are these identified and how can the fan rate be managed and even increased this book  
provides answers to all these questions based on surveys and interviews with more than 100 000 respondents it becomes  
clear that fans have the highest customer value and therefore contribute significantly to the economic success of a company  
however in order to win fan customers and increase these numbers a complete rethinking of customer relationship  
management and a departure from the customary key performance indicators is necessary taking this path is extremely

worthwhile fan customers have an emotional connection to their provider and form a new reliable currency both as direct buyers and as active ambassadors this a must read for all business decision makers who want to improve the quality of their customer relationships while saving money and achieving more than just short term success from the contents definition of fan customers and what emotional customer loyalty means distinct value of the fan customer as a value added partner and ambassador fanomics as a management program in customer relationship management concrete suggestions for implementing fanomics best practices and illustrative examples of tops and flops from the business world
