it is widely recognized that professionals such as doctors nurses engineers and teachers have duties that go far beyond those of ordinary citizens but there is much disagreement as to why they have such duties in professional ethics a trust based approach terrence kelly argues that such duties come from the unique trust that professionals must invite develop and honor from those

they serve without trust professional practice would be significantly impoverished both ethically and instrumentally and the autonomy enjoyed by many professions would evaporate professionals therefore have good reasons to be effectively trustworthy that is to develop the virtues necessary to be responsive to the vulnerability of those they serve and effectively communicate that responsiveness to others being effectively trustworthy requires a commitment by professionals as individual practitioners and as members of ethical communities committed to building a culture of trust such communities can and should design virtue based professional education that promotes trustworthy character formation and articulate an ethical vision of the trustworthy professional that has real credibility in the practical conditions of profession because of the importance of trust professional communities also have good reasons to develop conduct standards such as those regarding conflict of interest that promote professional trustworthiness in both fact and appearance

driven by changes to clinical practice new evidence based research and shifts in global economics and politics the field of paramedic science is rapidly evolving this new edition of fundamentals of paramedic practice offers students and recently qualified practitioners an accessible and comprehensive introduction to paramedic science and pre hospital care providing expert and up to date guidance on the essential theories and real world practice of this dynamic area of emergency medicine assuming no prior knowledge of the subject this user friendly textbook provides broad and inclusive coverage of topics including professionalism law and ethics assessment skills research methods pharmacology and more contributions from experienced paramedics and clinicians contemporary case studies full colour illustrations and powerful pedagogical tools help students gain a thorough understanding of the essential components of paramedic practice employs a comprehensive multidisciplinary approach to the study of paramedic practice presenting theoretical and clinical topics in a straightforward and student friendly manner new chapters on toxicology medical terminology and low acuity care in paramedicine with an increased focus on mental health includes new end of chapter learning activities and quizzes case studies and references charts and diagrams fundamentals of paramedic practice a systems approach is an invaluable resource for undergraduate paramedic and emergency care students as well as qualified paramedics clinicians and educators seeking an authoritative reference on current practice

this proceedings volume contains selected papers presented at the 2014 international conference on education management and management science icemms 2014 held august 7 8 2014 in tianjin china the objective of icemms2014 is to provide a platform for researchers engineers academicians as well as industrial professionals from all over the wo

kerstin fink discusses the two mainstream measurement fields the cognitive science approach and the management approach she develops the knowledge potential view which is determined by nine key measurement variables i e content culture networking organizational knowledge learning and training customer and competitor knowledge and knowledge management systems

research interest in the service sector has boomed in recent years as deindustrialisation became entrenched instead of being regarded as merely supplementary to traditional industry and manufacturing services have generated progressively rising levels of growth in developed economies while at the same time coming to be recognised as major drivers of innovation among the factors which have helped service companies notch up swifter growth rates than all other sectors are the outsourcing of such services by other sectors including the development of information and communication technologies and changes to the regulatory legal and market frameworks as well as globalisation and internationalisation the result is a cluster of highly innovative firms which can loosely be grouped under the heading of knowledge intensive business services kibs knowledge intensive business services and regional competitiveness charts the development of these firms and explores their success through four mutually linked parts kibs and industrial dynamics kibs and their context kibs and their contribution to regional competitiveness and economic development and finally kibs and public policy this book is suitable for researchers and policy makers interested in the rise of these influential actors and their influence on regional competitiveness
