meningitis seizures poisoning and emergency childbirth environmental conditions including hypothermia frostbite heat stroke sunburn and lightning strike pediatric emergencies and illnesses including assessing an unresponsive child or baby pediatric cardiopulmonary resuscitation cpr choking croup and febrile seizures first aid kit lists for home vehicles and outdoor use with an appendix featuring an a to z list of every condition covered it s easy for you to quickly find the exact information you need in any situation you may face with its small trim and portable size the complete first aid pocket guide is the perfect addition to a home first aid kit car first aid kit disaster survival bag as well as a pocket companion for emts and other first responders in the field

first aid is the assistance that one gives to a person who has an emergency medical condition such as serious bleeding choking or the need for cpr it is essential for people who may not be trained in other areas of healthcare for example paramedics are valuable because they have medical training and equipment to handle more serious emergencies than someone without those qualifications it is important to learn first aid because it can help save someone s life this is especially true for those who do not have training in other areas of healthcare and are the first to respond to emergencies it is also important because a person s life may be saved by knowing how to provide basic assistance in an emergency through cpr or the heimlich maneuver within the united states alone about 300 000 people die from heart disease every year cdc one should be able to give correct cpr because it could relieve a person from cardiac arrest until medical professionals can arrive first aid could also be useful for many other reasons such as burns bleeding and bone and muscle injuries the purpose of this book is to inform the reader of the information needed to help someone with an emergency and to provide tips for how to respond if confronted with one when learning how to give first aid it is important to know who would be more appropriate for the situation first aid training can be done in a classroom setting but it may not be necessary there are many reasons why an individual would need first aid

training and how it could benefit them or others the most important reason why one would need first aid is because they may not have any other medical training cdc the information you learn will be useful in the future to save a person s life the following are a few reasons why it is important to have first aid training this book covers general first aid knowledge first aid knowledge to be mastered and developed drugs used in first aid common types of drug administration sites splints for broken bones and joints gravity first aid development of basic first aid skills special needs of the elderly people and handicapped people in case of illness or accident pregnancy in case of an accident childbirth in case of an accident and much more everyone should know how to give basic first aid such as bandaging wounds splints and using an oxygen mask knowing how to provide these types of first aid may be useful in the future for example someone who has an injury may not have any medical training however they could be able to give good quality first aid if they were educated on the subject also knowing how to help with a burn or bleeding wound allows one to help with painlessly also it could save the person s life until medical professionals arrive this book will surely help you in getting the right knowledge skills and attitude to become a good first aider this book will cover step by step instructions on how to save someone s life

the complete idiot s guide to first aid basics helps you build the skills you need to help someone who needs it feel confident about identifying and handling injuries even when a few moments can make a difference in this complete idiot s guide you get solid information about identifying and treating dozens of illnesses and injuries friendly advice in an easy to understand format tips definitions and warnings to help you along the way and clear illustrations that show you exactly what to do

ask any fire rescue or ems person and they will tell you the key to emergency response is preparedness first comes prevention knowing how to stop emergencies before they happen yet if sudden injury or illness occurs knowing what to do can make the difference between a mild

emergency and a serious one or even between life and death when you don't know panic usually results now you're part of the problem but don't fret the information you need to be the first step in the solution basic first aid and safety skills is relatively simple and easy to learn easy to learn yes but if things go wrong your learning suddenly makes all the difference first aid and safety for dummies gives you the tools you need to save a life whether it's performing CPR correctly or accident proofing your home this comprehensive guide shows you how to effectively prevent and respond to emergencies in typical lively yet informative dummies style you'll find out about dealing with wounds burns poisoning shock bites and stings choking and much more thorough instructions detail each problem and its first aid off putting jargon is kept to a minimum and common sense to a maximum in considering not only the classic symptoms for example two hands on the throat for choking but also the variations what if that choking victim is you and you're alone that crop up in real world emergencies emphasizing practicality and ready to use knowledge this book also covers creating a first aid kit safety for all areas of the home special needs of children the elderly and the disabled a chapter on hazards of the high tech workplace sports injuries and accidents herbal remedies CPR and artificial respiration emergency rescue procedures who to call and when preparedness is peace of mind with the knowledge you'll gain from first aid and safety for dummies you can rest assured that you've taken the most effective steps against accidents and mishaps you can also be confident that if an emergency does occur yours will be the calmer cooler head and cooler heads are the ones that prevail
