learn to hone your dental assisting knowledge and skills with this bestselling workbook featuring reinforcement exercises and application activities that correspond chapter by chapter to the content covered in Robinson's Modern Dental Assisting 14th edition. This workbook gives you the practice you need to master both dental assisting concepts and practical office skills. The workbook comes with original practice management exercises that correspond to the DENTRIX software available on Evolve. Also included are ample content review questions, case applications with questions, detached flash cards, and competency skills evaluation sheets for practice with dental assisting procedures. Seamless content correlation uses activities and exercises that reinforce the chapter content students are currently learning in the main text. Practice and review questions for each chapter include short answer, fill in the blank, multiple choice, and labeling questions to help reinforce students' understanding of terminology and concepts. Dental Assisting Clinical Externship Guide provides information and resources to support practicum. Competency skill checklists provide clear guidelines for performing each dental assisting skill and help students evaluate their strengths and weaknesses with pages perforated so that they can detach individual skill sheets for use in clinical settings. Flashcards summarize key information about the sciences: medical emergencies, infection control, radiography, dental materials, dental instruments, and dental procedures, offering convenient on-the-go review and exam preparation. New updated review questions, case applications, and exercises help reinforce students' understanding of terminology and concepts from the main text. Updated revised DENTRIX exercises correlate with the updated DENTRIX Learning Edition software, which is available for download on the Evolve companion website.

Dynamic, comprehensive, and user friendly, this bestselling text is specifically designed to help readers prepare for and pass the DANB certification exam, as well as to manage the challenges of working in the modern day dental office.

Reinforce your understanding of dental assisting concepts and practice essential skills with chapters corresponding to the chapters in *Essentials of Dental Assisting*, 7th edition. This student workbook provides a variety of exercises and activities to help you master the role and responsibilities of the dental assistant. Learning activities include review questions, competency sheets, and handy flashcards, each applying your knowledge to preclinical and clinical procedures. It's an ideal study tool to use in dental assisting courses and to prepare for national board and state certification exams. Chapter exercises test your recall and comprehension of the material with short answer, multiple choice, fill in the blank, matching, true/false, and labeling for dental anatomy and charting. Correlation with the textbook makes it easy to move between the chapters in the main text and the competency sheets and exercises in the workbook. Correlation with the online interactive dental office provides engaging exercises for the patient cases on the Evolve website. Competency sheets allow you to practice a skill until you have mastered it and provide a convenient template for self, peer, or instructor evaluation. Cases with short answer questions let you apply concepts to the practice setting. Removable flashcards quiz you about the sciences: medical emergencies, infection control, radiography, dental materials, instruments, and dental procedures, helping you prepare more effectively for courses and also for national board and state certification exams. Perforated pages allow users to detach exercises for classroom evaluation and competency forms for use in clinical evaluation settings. New updated content reflects changes to the *Essentials of Dental Assisting*, 7th edition textbook in areas such as the electronic health record, preventive techniques, the impact of the Affordable Care Act, and cultural diversity.

New updated content reflects the main text's more complete incorporation of the move toward the paperless dental office and electronic health records (EHRs), specifically in areas such as scheduling, filing, bookkeeping, electronic record regulations, and insurance processing. HIPAA updates are also incorporated throughout. New updated questions, activities, and puzzles reflect the changes in content and further the focus on critical thinking and application. New semester project includes a series of relevant exercises that add up to a capstone project in which you will create office procedures and management for your own fictitious dental practice. New original practice exercises developed by the text author work in conjunction with the DENTRIX Learning Edition software to help you experience what it's like to work with dental practice management software. New appendix forms supplement the cases and exercises provided in various workbook chapters.
