- 1 Definitions Ensure you understand the precise definitions of core semantic concepts Dont rely on intuitive understanding refer to your textbook and supplementary materials for clarity
- 2 Examples Your textbook likely provides examples illustrating each concept Analyze these meticulously noting the specific features that exemplify the concept in question Construct your own examples to reinforce your understanding
- 3 Relationships For questions about lexical relationships synonymy antonymy etc analyze the nuanced differences in meaning Simple dictionary definitions might not suffice consider contextual usage and subtle shades of meaning
- 4 Ambiguity Resolution When dealing with ambiguous sentences identify the source of ambiguity lexical or structural and explore all possible interpretations Explain how contextual information might help resolve the ambiguity
- 5 Truth Conditions For compositional semantics questions determine the truth conditions of sentences Consider different scenarios and evaluate whether the sentence is true or false in each context
